

Using GIS in Hazard Mitigation Planning and Emergency Management

Presented by

Christine Caggiano, AICP

City Planner and GIS Data Analyst for Michael Baker Jr., Inc.

Join Ms. Caggiano and the Department of Geography to discuss the development of ESU's 2014 Hazard Mitigation Plan and the practical applications of GIS in hazard mitigation and emergency management.

Beers Lecture Hall

Tuesday, March 25, 2014 • 4 - 5 p.m.

Q & A to follow

This lecture is open to all members of the university community.

Visit <http://www.esuhmp.com/> throughout the Hazard Mitigation planning process to see meeting information, submit comments, view announcements, and to review draft documents. Visit the 'Announcements' page to subscribe to alerts!
