

The Department of State launched **2Vote**, a new voter registration text messaging service. Eligible Pennsylvania citizens can text the word **“PA” to “2Vote” (28683)** on their smartphones. The user will receive a link that provides direct access to the online voter registration application, voter registration status, polling place locator and link to contacts for county offices and the Department of State. The Department is launching this service as part of its Everyone votesPA education initiative, that was introduced in March. Register today!
