Find the LockDown Browser

1. Once you are on a computer that has the Lockdown Browser on it, you can find the LockDown Browser by clicking on the icon for the Start Menu.
2. Then in the search bar type in lockdown.

3. Notice that a program titled “LockDown Browser Lab” will appear under Programs. This will probably be the only thing that appears when you type “lockdown” into the search bar.
4. To use the LockDown Browser click on “LockDown Browser Tab.”

Click on “LockDown Browser Tab” to use the LockDown Browser.
