Q18. What additional support or services do you think ESU should provide to help students succeed academically?

Count	Percent	
48	100.00%	
Count	Percent	
1	2.08%	online supplementary content not left up to professors discretion
1	2.08%	Additional tutoring available at Lehigh Valley campus.
1	2.08%	Better advising or a program to help students get more organized around the time of selecting classes. That was always a hectic time for me.
1	2.08%	Better tutoring programs for cohort students
1	2.08%	Both Pazaki and Hu should be fired for their lack of advising as ADVISORS.... Unhelpful, uncaring morons.
1	2.08%	Enough services are around for those who seek help.
1	2.08%	every semester, there should not only e a mandatory session with your advisor, but group sessions to guide students to graduate within 4 years.

1	2.08%		Have advisors that are motivated for students to graduate on time
1	2.08%		I enjoyed everything here at ESU
1	2.08%		I know it is difficult but it would be great if there was a way to have more tutors for 400 level classes or if those classes created a mandatory study group that meets once a week. As a student with a full time job it is difficult to be able to learn the difficult material, especially when I have difficulty being able to find a time to get together with other students.
1	2.08%		I think ESU can implement some type of short (1 class) seminar course for freshmen or anyone who is interested in learning how to study efficiently. Studying is a skill, a learned ability, and since I have a 3.71 GPA and still work fulltime, I think I have mastered the art of studying. Transitioning from highschool to a secondary educational institution can be arduous at first and without the right tools and preparation students can feel overwhelmed which can hinder their academic success.
1	2.08%		I think for higher level classes if a TA or previous semester student held group study sessions prior to exams it would be very helpful.
1	2.08%		I think there could be more done by the academic advisors. I think advisors should reach out to the students and check in with them every once in a while to make sure things stay on track.
1	2.08%		I think this is a self-motivation problem. People feel motivated when they feel more empowered. In order to empower people, it is essential that they feel included. Therefore, monitoring minority relations on campus, should help students succeed academically.
1	2.08%		improve faculty help at the enrollment and financial aid
1	2.08%		Midterm Grades Posted be made mandatory for professors.
1	2.08%		More advisors in majors so the current ones are not too overloaded
1	2.08%		More help in finding internships with nearby companies
1	2.08%		More money into the tutoring center to better off students.
1	2.08%		More quiet hours in library.
1	2.08%		More SI sessions for classes, especially the somewhat upper level, universally-difficult classes (such as Abnormal Psychology)
1	2.08%		More specific tutoring for majors.
1	2.08%		More study groups.
1	2.08%		More subjects dealing with Health Education
1	2.08%		more tutoring for commuters and part-time students.
1	2.08%		More tutoring.
1	2.08%		more tutors for classes
1	2.08%		n/a
2	4.17%		N/A
1	2.08%		new academic advisor .. you should fire Dr Eshen from psychology. worst advisor ever.
1	2.08%		Not sure
1	2.08%		Nothing
1	2.08%		Online tutoring
1	2.08%		Orientations on honors programs for arriving freshman.
1	2.08%		Overall I think ESU has a very good program when it comes to Education, however I believe they need to be more organized. Sometimes professors or even advisors do not know answers to questions they should know. There are also some times when they give an answer but then a few weeks later the answer changes. Just things like that.

1	2.08%		Pick professors who aren't here just for a paycheck.
1	2.08%		professional tutors!!!!!!!!!!!!!!
1	2.08%		Provide more support for non-traditional students
1	2.08%		Providing adequate services, in general, at satellite campuses.
1	2.08%		Social Support services
1	2.08%		Student-driven learning via alternative syllabi. Students all learn the same material but are able to do so in alternative ways, e.g. student writes a paper instead of taking a test. Both can show the student has learned the material so why not let the student decide what they would rather do?
1	2.08%		tell them to actually take class seriously.
1	2.08%		There needs to be more organization with different educational field offices. Being part of the middle level education and special education, I have been ran around multiple times because I could not get properly informed from different individuals that I feel should have had the appropriate answer. With that being said, with all do respect, I also have felt that the major of Middle Level Education feel like it was thrown together all in one night. The classes that are required for us are also required for elementary education or secondary education. While in those classes some professors did not know what to do with me or my other middle level colleagues. I honestly believe that there should be a second look at the middle level education to get it more organized.
1	2.08%		tutoring for more classes/majors
1	2.08%		tutoring services that are more accessible to commuter students and more applied to upper level coursework
1	2.08%		Tutoring. It exists but it's lacking. Needs to be improved.
1	2.08%		Writing lab

Q19. What additional support or services do you think ESU should provide to help students cope with non-academic responsibilities (work, family, etc.)?

Count	Percent		
45	100.00%		
Count	Percent		
1	2.22%		A course on time management and organization.
1	2.22%		Again, offering some time of quick seminar course that informs students how to manage time efficiently. Studying techniques, stress levels, priorities, success and career goals should be addressed. These are things I wish someone abetted me with me in the beginning of my college experience.
1	2.22%		Any resource that can be applied should such as group support
1	2.22%		B
1	2.22%		better commuter area with a refrigerator for meals
1	2.22%		Bigger support systems
1	2.22%		Care about your students. Not just when cameras around. It takes months to get a hold of the zimbar office. Takes months to find out what credits you are missing. Everyone hired by this university has an education of a toddler. Coming to ESU was the worst decision in my life. I attempted to commit suicide nearly two times while on campus. I hope this place gets shut down.
1	2.22%		clubs available to commuter students
1	2.22%		Counseling services, peer to peer support
1	2.22%		Counseling services, study groups

1	2.22%		Group counseling (weekly, bi-weekly), open to anyone.
1	2.22%		Guidance counselors
1	2.22%		have more available parking for students so they can travel and don't have to stress about trying to find a way to get home.. have them register the car under their name so you can regulate who actually has a car and there isn't 1 person with multiple cars here.. keeping busy always helps with other responsibilities and so does planning.. i believe that students should have more access to meals because some can only afford the meal plan and outside of those hours, especially on the weekend its hard to plan for meals.. make all meal plans carry over until the end of the semester, regardless the school is going to get the money because we have to pay for it, it's up to us to use the swipes if we want to
1	2.22%		Help in finding part-time job opportunities
1	2.22%		Helping students find part time work that allows them to balance work and their grades.
1	2.22%		I think ESU did a wonderful job in recognizing the needs of adult learners and their specific responsibilities.
1	2.22%		I think ESU is doing excellent with non-academic responsibilities. I think that they are very supportive and helpful.
1	2.22%		IDK
1	2.22%		Making sure funds raised by clubs stay with the club raising the money. I have heard of money raised by a group was taken by SAA.
1	2.22%		Maybe if there was a small office non-traditional students with family responsibilities outside of school, where we could receive support and advice about how we can manage our time better or something to that effect.
1	2.22%		More career service and finical aid help
1	2.22%		More flexible schedules, or more class sections. Also, implementing an attendance policy that allows for students to miss class if they cannot attend without professors retaliating by lowering the student's grade. In essence, student's pay for the classes, they should be able to decide whether to attend or not without their grade being affected.
1	2.22%		more on campus jobs
1	2.22%		More online classes and some more flexibility for non traditional student.s
1	2.22%		More opportunities to spend with counselors or providing clearer instructions on how to utilize these opportunities
1	2.22%		More work study jobs, more flexible class scheduling
3	6.67%		n/a
1	2.22%		N/a
4	8.89%		N/A
1	2.22%		None
1	2.22%		nothing its great
1	2.22%		On site daycare perhaps?
1	2.22%		Provide breaks for students who come from hard working families who have a job thru school. The weak and lazy are catered to at ESU.
1	2.22%		Providing different course offerings at night.
1	2.22%		STOP CUTTING MONEY FROM CAPS
1	2.22%		The school prides itself as being the most culturally diverse in the PASSHE system, yet refuses to provide more funding to support culturally diverse programing/initiatives/ OMA.
1	2.22%		transportation for club sports
1	2.22%		unsure - don't know what currently exists for this.
1	2.22%		working student organization

	1	2.22%		Workshops on time management and how to deal with stress

1	1.82%		For the most part they are all great.
1	1.82%		Friendly, but tense. They all seem overwhelmed with more work than they can handle and frequently fail to follow-up on time-sensitive issues. No one was ever unkind to me, but everything was a frustrating struggle that I feel required much more time and effort then a student should be responsible for. I'm told that this is not an issue on main campus.

I really enjoyed our conversation and feel that she got to know me as a person. She's a great professor.

Q40. The University and local community offer a variety of opportunities that make that ESU experience unique. What would you tell a new student to do before they graduate in order to have the best ESU experience possible?

Count	Percent	
1	2.00%	Always approach your professors
1	2.00%	Be involved in clubs to meet new people
1	2.00%	Be involved. Join a club, make friends, walk around campus.
1	2.00%	Being a non-traditional student at ESU has it challenges for joining experiences, but new students whether they are transfer students or just starting out at ESU should take advantage of all the activities available to them. You never know who could be your next contact in the workforce.
1	2.00%	Do a internship it was hard but it was great.
1	2.00%	do not be a science major
1	2.00%	don't be afraid to get involved but no one should tell you you HAVE to get involved, everyone has their own experiences
1	2.00%	Don't go out for party too often.
1	2.00%	Enjoy every opportunity to be involve in the student life

1	2.00%		Focus and don't take advantage of it
1	2.00%		Get EVERYTHING in writing, don'tt expect the left hand to know what the right hand is doing, and never be afraid to (diplomatically) go up the chain of command to get your needs met. This is going to be a steep, bureaucratic climb. Good luck!
1	2.00%		Get into your majors club, its not stupid. It will give you something to put on your resume and you will be able to make friends!
1	2.00%		get involved

1	2.00%		GET INVOLVED, explore the area (Pocono/Lehigh Valley, NYC), travel to other nearby colleges, be sure to get involved with your major early, keep track of everything you're involved in
1	2.00%		Getting involved in clubs and organizations is one of the most rewarding and beneficial experiences a student could have outside the classroom. Being active in a club teaches students things that they could never learn in the classroom, and gives them a hands-on experience. Many of the skills and lessons I have acquired as an undergraduate have been a result of my activity in clubs.
1	2.00%		go to events
1	2.00%		Go to events or sporting events you may not know much about and meet some people there. Some of the best people I met at ESU had very different interests than myself.
1	2.00%		Go to the events that ESU has, most of them are free and can be a great way to meet new people and hang out with friends. Another thing I would say would be to at least go on one bus trip through the school. I am a huge Broadway fan and loved the spring bus trips into the city to Les Miserables' and Aladdin. If you don't like Broadway though there are so many other options for bus trips.
1	2.00%		Have a great adviser who is hands on, and his door is always open for his students even with his very busy schedule. That made my learning experience less stressful, and manageable.
1	2.00%		Have frequent conversation s worth professors.
1	2.00%		I would suggest that the student do as many things in the area as possible, such as hiking, kayaking, horseback riding, etc. Small town life can be nice.
1	2.00%		I would tell the new student to use every office as much as they can and to use study abroad services.
1	2.00%		I would tell them to attend as many games like football and basketball as they can. I did not get a chance to attend the games as much as I would have liked too.
1	2.00%		Interact with other students and professors. It's so important to get to know your professors, especially if you are looking to attend graduate school. Try to keep your GPA up, get a tutor if Possible. Join clubs and organizations. It really does add to the college experience.

I also like that they have had so many awesome real life experiences to tell about career wise.
1	2.04%		Giving me the ability to critical think well and connect ideas together from other classes and link everything together to make sense of everything. Another strength is learning things from my college education and applying it to the real world which is imperative.(What is the point of education if you cant apply it.) 1	2.04%		The small class sizes of LV campus where a huge benefit to all the non traditional students because it afforded us more one on one time with the instructor. This also led to great discussions on the subject matter between the students and the instructors. 1	2.86%		Best school in Pa
1	2.86%		A dual or tri-level parking garage in place of the pit would alleviate most of the parking issues the campus faces, in addition to validating our parking permit fee. Also...why do commuters pay for a parking permit when transportation fees are built into our tuition? Just saying.
1	2.86%		Being a non-traditional student, I found the ESU community to be inviting even on main campus for the classes that I enrolled in.
1	2.86%		Diversity is strong
1	2.86%		djsnfdsnfds
1	2.86%		ESU shouldn't be an accredited university.
1	2.86%		Financial aid counseling needs to be way better
1	2.86%		have fun but be smart

1	2.86%		I am a better person because of my education at ESU. I will be continuing for my graduate degree here as well.
1	2.86%		i believe they should whole heartedly treat us like adults, most of us are 18 when we enter college, legally we are adults, the school can send a letter home with you get an alcohol citation but our grades are private that our parents cant see.. i think that is ridiculous, it should be either everything or nothing
1	2.86%		I think the arts program is completely minimal and the arts program here barely contributed to my learning at all.
1	2.86%		I think the science program needs to be taken more seriously. The class sizes in labs would increase, but there would not be enough materials for the entire class. My biggest impression of ESU is that the faculty are wonderful, but the administration doesn't care about giving science majors a quality education.
1	2.86%		if you plan right, it's a great opportunity to get a good education
1	2.86%		Many professors need to take courses on how to communicate effectively with students - specifically speaking with the bio and chem professors since that's where the bulk of my experience was.
1	2.86%		MOST (90 %) of the ESU staff I enjoyed as professors because they were adamant about helping the students and were concerned about student success. I always believed that student success and faculty success are highly related and I call it the student-professor mirror relationship. If the professor is not succesful at educating then dedicated students wont succesfully become educated. Students must also give 100% effort along with the professor to learn different ideas and educate themselves as well.
1	2.86%		Most of faultys and students are friendly here in ESU.
1	2.86%		most of the classes are not that hard
1	2.86%		My 3 and a half years at ESU will be the most memorable times of my life this far.
1	2.86%		My experience at ESU has generally soured my opinion of academia. I feel that majority of my education was self-taught through the provided texts and Googling. The support I received was minimal, at best, and the campus felt disorganized in every respect.
1	2.86%		My impressions of ESU are that more attention is needed to be given to non-traditional students.
2	5.71%		n/a
2	5.71%		N/A
1	2.86%		other schools are more easy to get involved in and have more enriching requirements for majors besides classes
1	2.86%		proficient administration, regarding specific student interaction
1	2.86%		Received a low GPA due to transferred classes, never received any scholarships or funding assistance.
1	2.86%		SAA is really comprised of a wonderful set of people that genuinely care about their students and try to enhance their knowledge and skills.
1	2.86%		Sciences are not supported as much as they can be.
1	2.86%		Some people have negative things to say about ESU. I do not think it is a problem with ESU but rather an unfit individual. Some people flourish while others fail. This come down to maturity level of students. Are there better Athletic Training programs at other institutions? Maybe, but ESU was a great fit for myself and I feel I am more prepared than others to begin my Professional career.
1	2.86%		The campus activity culture is widespread, but more emphasis could be placed on developing quality academic programs.
1	2.86%		The campus is a very welcoming environment for new students and the staff does all that they can to try and help students earn more knowledge and better themselves as human beings.
1	2.86%		The commuter lounge is way too small for the amount of commuter students enrolled. The caroches are dirty and old, no place to store keep meals (like a refrigerator) on days I actually stay here long hours using the library and wait for evening classes. Definitely, the school should invest in a better commuter lounge. By the way, the GYM is excellent!!!
1	2.86%		The psychology department is very well run and functional
1	2.86%		Why does the library close so early? Why are there no quiet cafes to enjoy coffee? Why does all the café food taste the same? Put less salt on it. Empowerment is a result of inclusion. Relationships form around food. If we improve the quality of the food and the dining experience as a whole, a feeling of inclusion will follow, empowerment would increase, motivation would increase, and the academic achievement of students

would also increase.

1	2.94%		She was a person who cared about what you needed. Everytime I went to her with something she helped me immensely, in the classroom and also while applying to grad school. She no longer works here either but I will always appreciate the time she took to help me.
1	2.94%		Taught me so much in such a short period of time, because of her I can say I have done completely original research and presented it at a conference. The skills I learned in her class will help me in the future.
1	2.94%		This is another great professor that was very knowledgable about physics. I spent many many hours in his office trying to undertand certain concepts. He was extremly patient with me and challenged students so we were forced KNOW the material. He is just an amazing individual who loves teaching and who cares about his students success.
1	2.94%		Very genuine, sincere, and relatable to students life, school and just understanding the sacrifice
1	2.94%		Very nice and has aided me for 4 years.
1	2.94%		Your support has been essential to my success at ESU. Thank you for all the time and effort you have spent on our research together. :)

	1	5.56%		Awesome teacher

1	5.56%		awesome teacher. learned a lot from him
1	5.56%		Awesome, well connected, knows the field
1	5.56%		Dr. Lare helped me a lot as far as lesson plans and other basic teaching requirements were. I really liked having him as a teacher because he showed us so much in teaching by modeling it to us. That made a huge different because we were actively involved in the different teaching methods he showed us.
1	5.56%		Dr. Patero, is a great professor. he is patient and he was willing to help me every time I needed help.
1	5.56%		Dr. Whidden helped me bring my Biology grade from a C to an A. His teaching skills are extremely effective and he is just a great, caring teacher. He wants his students to succeed and he teaches in a way that the students can get the information they need to succeed (not the extra fluff).
1	5.56%		Greatly improved my writing and critical thinking skills, great professor.
1	5.56%		He challenges his students, so I've learned a lot from him.
1	5.56%		he made basic chem 1 and 2 fun and easy to learn
1	5.56%		His class was one in which I learned a lot, he was less concerned with the overload of information and more concerned with the information that mattered.
1	5.56%		Meaghan taught the Applied Microbiology Lab in the Spring semester, and she took a genuine interest in everyone's education. Our primary assignment for that class was to design and complete an experiment of our choosing, and Meaghan was beyond helpful and supportive of each and every student. Since she was a recent ESU graduate it was really a joy to learn from her because she knew a lot about the local programs and resources available to students.
1	5.56%		Opeining my eyes to chemistry
1	5.56%		She was my clinical preceptor during winter14-spring 15. She is the nicest woman, but does not allow you to get by on mistakes. She is sure to teach you in a way that will make sure you know your stuff. Trial by fire. She is what every Athletic Trainer should strive to be like,
1	5.56%		The most helpful professor I've had at ESU. Strives for his students to succeed.
1	5.56%		Though he no longer works here he was a big help without even knowing it. I took his classes because I knew he would push me. We were never close but he would ask the extra questions that the other lab teachers wouldn't. He expected more than the tenured professors. He didn't just teach he kept up with the newest evidence.I will always appreciate the time he put into the students at ESU while he was here.
1	5.56%		Working at Stony Acres was the best experience for me and helped me grow in all aspects of my life.
1	5.56%		Your courses are mind blowing. You have provided me with a new unique perspective regarding symbols and communication. I have and will never forget what I have learned in your classes. You have greatly impacted my college experience. As a result of your classes, I changed my major into something extremely interesting and important. Also, you're pretty entertaining. So, thanks for everything. :)

Count	Percent		
1	1.20%		i think that there should be a different pathway on how an adviser should interact with a student. for ex. instead of having a lot of free electives for a student to choose from, they should have classes that specify exactly the career path that student what to take that relates to the field they are trying pursue.
1	1.20%		A building with 24 hr access to all students, all year round, rather than finals.
1	1.20%		A tutor center in the library
1	1.20%		Access to books at the Lehigh Valley site for students who are unable to make it to the main campus.
1	1.20%		all courses should require a tutor
1	1.20%		Attentive advisors that actively keep in contact with students and ensure that they are on track to graduate as well as gaining the best knowledge and experience through proper course work.
1	1.20%		Be more direct about offering internships and things of that nature.
1	1.20%		Better advisors
1	1.20%		Better knowledge of events
1	1.20%		Better planning for student teaching
1	1.20%		Better tutor department with PROFESSIONAL TUTORS NO STUDENTS.
1	1.20%		Better tutoring and more strict use of D2L
1	1.20%		Better wifi in academic and residence hall buildings.
1	1.20%		career development
1	1.20%		Career services more involvement
1	1.20%		career services, dorm life, counseling
1	1.20%		Classes on GRE prep, and how to form a resume and cover letter that are non major specific.
1	1.20%		easy registration, online pay without major fee
1	1.20%		Encourage real creativity. Killing the music department was a dishonorable decision. My initial adviser was mean and here I am with 122 credits and no degree because she (and the dean) meslead me into thinking I had to take more classes than I actually did.
1	1.20%		forced check ups with advisors
1	1.20%		Freshman year mini internship in the field thy intend to go into.
1	1.20%		General tutoring hours for a class instead of appointments with gurus
1	1.20%		group counseling sessions for every major
1	1.20%		Guru or tutoring in the later afternoon/ night

1	1.20%		Guru times are very limited that has to change
1	1.20%		Have a better program laid out with extra opportunities and different plans in case the main one does not work out.
1	1.20%		have it be required that all professors are literate in using D2L and have them all use D2L also have the printers checked more often and computers as well the exercise science building needs a lounge area and a bigger computer area for the massive amount of students that are exercise science or athletic training majors
1	1.20%		I did enjoy the professional tutoring before it was dismissed for student tutoring only. I think it was good to have both professional and student tutoring to help students.
1	1.20%		I had an excellent advisor but I have heard horror stories regarding other advisors. I attended another university that had designated advisors - that was their ONLY job, they did not teach, do research or anything else. This allowed the advisors to be there solely for the student. This might be needed in the future at ESU. I know several people who should be graduating in May 2016, but are not due to misguidance from advisors.
1	1.20%		I strongly feel ESU should provided professional tutors for the students, particularly those coming to college directly from high School.
1	1.20%		I think ESU provides all of the necessary services for its students to succeed.
1	1.20%		I think everything they have is good enough
1	1.20%		I think that meetings with advisors should be mandatory monthly. Advising is crucial in the experience and without a good advisor or relationship with the advisor, it's lacking.
1	1.20%		Lehigh County Community College has a program called SEED that supports people with disabilities throughout the semester. They have weekly meetings to see how school is going and your life outside of school. They assist you in being organized and being on track. I think there should be one at ESU for any student because I know I would have done better if there was a program like that because I am horrible with time management and I know being in college your expected to be responsible for everything, but some people just can't do simple things like time management or just being organized. ESU may have something like this already, I don't know, but if they do, they should definitely advertise it more.
1	1.20%		Less mandatory general education classes. More classes needed towards major.
1	1.20%		Make it maditory for students to see there advisor more than once a semester to go over things.
1	1.20%		make sure advisors know what they are doing

1	1.20%		More classes and class times offered
1	1.20%		more guest speakers
1	1.20%		More help when it comes to finding internships. The departments should have established relationships with different companies and people in order to help students get a paid internship, and not have them have to do it on their own.
1	1.20%		More individualized tutoring sessions
1	1.20%		More interactive projects and events to help visually teach students plus ways to teach students with more hands-on work.
1	1.20%		More internship hours

1	1.20%		More publicized forms of support for graduation requirements, processes, etc.
1	1.20%		More recognition and utilization of the The Learning/Tutoring Center. Get students encouraged to also meet with their professors and not be so afraid of office hours. I've gradually learned this myself.
1	1.20%		More Tutoring for upper level classes. Gurus are helpful if they fit into your schedule which isn't also possible

1	1.20%		open tutoring labs not just make an appointment and find a tutor
1	1.20%		Opportunities and more help when it comes to observation hours, internship placements etc...
1	1.20%		Praise the students that are academically achieving. They are what is making ESU good even though it is important to help the other students it is important that praising the good students motivates the bad students to be better
1	1.20%		professional tutors

1	1.20%		Professional Tutors readily available
1	1.20%		provide more flexibility in in some courses that are not available all the times
1	1.20%		reach out to students a little better to interact more on campus

1	1.41%		I am not aware of what services are available so I can't answer this question.
1	1.41%		I know ESU has therapists on campus for our mental health, but I think it should be advertised more and how/where you can sign up for a session.
1	1.41%		I know there is a psychologist that the school has and some sort of peer organization where new freshman are paired with mentors. RAs also help with non-academic issues, I think when people live off campus there should be some sort of help besides the psychologist. Many people don't think that one will help and only seek help from friends. Maybe a club or group could be organized if there is not already one.
1	1.41%		I think more counseling services should be available. There is a backlog of waiting for appointments and some need appointments more than monthly or bi-weekly and aren't able to receive them.
1	1.41%		If there are on line classes why some tests needs to be taking in certain days between certain hours. Therefore, the working student needs to take off from work to be able to take the "online test". If, it is online class should be "due dates" for homework, but not restriction on when to take the tests!!!

1	1.41%		Make c.a.p.s more approachable
1	1.41%		Make it most known that we have a counseling center
1	1.41%		Make the alcohol and drug education better, and not discriminate against certain organizations due to stigmas.
1	1.41%		mandatory advisor meetings at week 5, week 10, and week 14

1	1.41%		More community service and clubs

1	1.41%		Pastoral Counseling Services
1	1.41%		Perhaps child care facilities or resources for non-traditional students, particularly during evening classes. Provisions for family resources for campus dwelling students.
1	1.41%		Professional placement and interviewing skills offerings for students going into a new work atmosphere.
1	1.41%		professors should be more understanding of non traditional students
1	1.41%		reasonable time for assignments due considering students are taking at least 5 courses
1	1.41%		required class about life things (how to handle stress, how to manage finances)
1	1.41%		Rides

1	1.41%		Social activities on campus
1	1.41%		something smart
1	1.41%		Students who are generally considered to be "non-traditional" students or students with young children who take later classes because of other responsibilities should be able to leave their kids at the Zimbar Mckean Center for the duration of their course. The center closes at 5pm and most of those late courses are often until 7pm or later. I think accommodations for students who are in this situation should be made.
1	1.41%		support group program
1	1.41%		Support Sessions. More exposure to the health center's counseling service.
1	1.41%		Therapy options
1	1.41%		There should be more accessibility for commuters to participate in symposiums, clubs, etc.

1	1.27%	Everyone is very friendly when I needed to borrow something or didn't know where something was on campus, people were there to help!
1	1.27%	Exercise science faculty are all very approachable and make the content of classes fun.
1	1.27%	friendly and helpful

1	1.27%		I remember the financial aid offices for the most part helping me out in figuring out my bill when I was clueless.
1	1.27%		I think the entire exercise science department is probably one of the most helpful departments on campus. Any member of staff is always willing to help out and listen to what you have to say. They also run more as a unit instead of individual professors. If there are two large tests in two separate classes they will help work it out where the student can take the tests on different days or give them time to study for both. Other majors professors do not generally care about the students and when in their office hours do not actually help or even listen to the issues the student is facing.
1	1.27%		I will like to say show my appreciation to Ms. Jennifer Serowick who always responded and helped me out in diverse situations, such as not having one of my grades posted on and the professor retired . 1	1.27%		when I transferred, enrollment services and financial aid were of great help
1	1.27%		When I went to my professor about getting denied in to grad school she encouraged me.
1	1.27%		While I don't applaud the overall "programs" about diversity, I do applaud the dedication of the teachers. I have yet to have a teacher who doesn't care about their students and makes an effort to help them learn. They are passionate and dedicated, and to add to this it is the student body that I have issues with, not the staff.
1	1.27%		Working here on campus has helped me build relationships with administration
1	1.27%		yvonne from nursing is very timely and kind whenever helping students with organization and needed documents

1	2.44%		ESU has helped me grow up and made me a better overall person
1	2.44%		ESU is small enough, yet big enough to want to be part of or not part of.
1	2.44%		Great people to be around
1	2.44%		Great professors who are passionate about their field and their students.
1	2.44%		great women's soccer team. women's sports deserve more recognition
1	2.44%		I am very happy with the art department. The faculty and the program have done endless amounts for me. I am unhappy with the business department. The business department has given me reason to have unhappier moments in my college career, where everything was in constant judgement by faculty and students in a negative way. That tainted my impression of that part of my time here.
1	2.44%		I believe there were many opportunities to get involved and have more achievements added to my resume to help me stand a part from other people who may be getting the same degree as me from other schools.
1	2.44%		I enjoyed my small classes
1	2.44%		I had a great experience at ESU! Overall, I can say that I had amazing professors throughout my career here! Whether it was in an elective class or in a major class I felt like my professors truly cared about the successes of their students. Even though I'm somewhat biased, the exercise science department has got to be one of the best group of professors and clinicians around! I would recommend that program to anyone and I owe all of my future successes in graduate school and beyond to them.
1	2.44%		I had an absolute amazing Time at ESU and I've met some awesome people. I'm not ready to leave and become an adult!
1	2.44%		I like ESU and it's a great school.
1	2.44%		I love the way you can easily connect with the teachers and the campus is easy to get around
1	2.44%		I needed a better advisor
1	2.44%		I really love ESU as a graduating senior. I didn't really enjoy it at all my freshman and sophomore years because I wasn't involved enough.
1	2.44%		I think that ESU is a very open-minded and welcoming school. I also love that the professors and doctors here know what they're teaching and are also involved in their fields even outside of the classroom.
1	2.44%		It is great for many different majors

1	2.44%		It is very affordable especially, if one is out of state student or an International student. As a commuting student I had flexible class hours, and I think the school should waive for commuting students the transportation fee which I paid and did not even use the routine buses within campus.
1	2.44%		many people seem selfish and that they only want to get good grades (and will do anything to get there) when the goal of education is to learn
1	2.44%		Many professors speak politically and impose their views on students. This is unprofessional as young adults are typically uneducated regarding politics and are brainwashed with what professors are teaching them. They obviously listen to professors and look up to them and believe that their ideas are "what's right" and instead never get the other side of the story. It is a shame, as a young woman who is politically educated to see what goes on in the university setting.

1	2.44%		no
2	4.88%		none
1	2.44%		NOTE: Typo in the above question. I don't really have any other additional impressions that come to mind though. :)
1	2.44%		simple campus
1	2.44%		The only thing that I think really needs work in the enrollment center. ESU screwed up my bill a couple times due to technical issues and I am an athlete, which meant I needed to fix it ASAP or couldn't play.
1	2.44%		The professors are great, and each class is different in its own ways.
1	2.44%		The professors were excellent, but many had to change their teaching techniques in order to fit the time parameters of the accelerated program at ESULV and because of this the curriculum was abbreviated and often times inadequately covered.
1	2.44%		The student body is obsessed with alcohol and drugs. They complain about teachers and give them a hard time for doing their jobs. The student body is also very harsh and prone to trends of hatred. From racism to homophobia, it is everywhere. People hate greek organizations with no real reason to, and the sports teams are much worse than the Greek community.
1	2.44%		the university doesnt do the best they can at getting information about campus activities to the students

1	4.17%		Got me involved and helped with my research
1	4.17%		I had Dr. Hotz during my senior fall semester at ESU. During this semester I missed a lot of class time for graduate school interviews. Dr. Hotz was always very understanding and very

			encouraging towards me. Just like Dr. Broun and Dr. Davis he went above and beyond what should be expected of a professor. He always asked me about how they went and wished me luck before each one. The interviews were stressful enough and on top of that missing class caused a lot of stress too. Dr. Hotz made me feel much better about missing the class time and I thank him for that. I can say that there are many more professors at ESU who in my opinion go way above and beyond the expectations of a professor. Just to name a few: Dr. Miltenberger, Dr. Moir, Dr. White, Dr. Schramm, Dr. Doherty, Dr. Whidden, professor Lawson and Dr. Witmer.
