

Thesis Guidelines

Please READ all sections in their entirety before submitting thesis.

PROCESS FOR THESIS REVIEW & SUBMISSION

I. Thesis Formatting Review

- ✓ After you have successfully defended your thesis, you are to use the enclosed **Thesis Formatting Checklist** to assure that all formatting guidelines have been followed.
- ✓ **MAY & DECEMBER candidates: By the due date given**, submit one copy of your thesis by email along with the enclosed checklist to Theses@esu.edu. To assure that all formatting guidelines have been followed, carefully read through each of the criteria and check in the "student assessment" column that each criterion has been met. Please be attentive to detail. **Note: The checklist also requires the signature of your thesis chairperson before submission to the Office of Graduate and Extended Studies. You will be notified if a hard copy of your thesis will be needed for review.**
- ✓ **JANUARY & AUGUST candidates: At least two weeks before the degree conferral date**, submit one copy of your thesis by email along with the enclosed checklist to Theses@esu.edu. To assure that all formatting guidelines have been followed, carefully read through each of the criteria and check in the "student assessment" column that each criterion has been met. Please be attentive to detail. **Note: The checklist also requires the signature of your thesis chairperson before submission to the Office of Graduate and Extended Studies. You will be notified if a hard copy of your thesis will be needed for review.**
- ✓ **Within 48 business hours**, your thesis copy will be reviewed by the Office of Graduate and Extended Studies. Necessary corrections will be noted on your thesis and returned by email.
- ✓ After you've made the necessary corrections, submit the revised copy to Theses@esu.edu for final approval. You will receive an email notification, indicating **final approval**, or if further revisions are necessary.

Remember . . .

The more time the Office of Graduate and Extended Studies has prior to Commencement to process your thesis, the sooner you will be notified of necessary corrections and be able to receive approval.

Any thesis turned in late will delay your degree conferral.

Not following these guidelines will result in removal from degree conferral.

THESISFORMATGUIDELINES

Each thesis must follow the Graduate and Extended Studies thesis format guidelines, enumerated below.

1. **Style Manual** — You may choose the style manual or guidelines that you will use with the approval of your thesis chair; however, it must be a standard system, and it must be used consistently throughout the thesis. You may not create your own. The same system must apply to individual references as well as to bibliographies. (You can consult a list of various writers' guides that explain the rules of the various systems.) Contact your individual Department Graduate Coordinator for additional guidelines that may be required.
2. **Margins** — Margins must be set-up to specific requirements, as follows:
 - a. The top margin is to be one inch (1"), except on the first page of a new chapter, which is to have a 3" top margin.
 - b. The bottom and right margins are to be one inch (1"). For the bottom of the page, there must be one inch below the page number in the footer.
 - c. The left margin must be 1½" to allow for binding.
3. **Font** — The font size should be 12-point and a standard type and easy to read. Script fonts are not acceptable.
4. **Required Pages** — Each thesis must begin with the following pages, in order as follows:
 - a. Cover/Title page
 - b. Signature/Approval page
 - c. Abstract page

Refer to Attachments A, B, and C for the proper format of each required page.

If your thesis involved human subjects, a copy of the signed IRB approval page should be included as the first page of the appendices. If your thesis involved animals, a copy of the signed IACUC approval page should be included as the first page of the appendices.

5. **Page Layout** — All pages must be in portrait layout and printed on one side only. Once again, each new chapter must begin on a new page. Sub-titles presented in the Table of Contents must appear in the text, in consistent wording and order.
6. **Page Numbers** — The required cover/title page, signature/approval page, and abstract page are not numbered. Page numbers should begin immediately thereafter and flow consistently throughout the thesis. Once again, per the guideline for margins, there must be a 1" margin below the page number on the bottom of the page.
7. **Print Quality** — Thesis copies submitted for review and for final printing are to be free of typographical errors, corrections, widows or orphans, and smudges or smears. The paper should be free of wrinkles or bends. If photographs, charts, or other graphics are used, each thesis copy must have originals. Copies are not permitted. If color photographs are used in one copy of the thesis, all copies must contain color photographs.

THESIS FORMATTING CHECKLIST

Instructions: After you have successfully defended your thesis, use this checklist to perform a *self-evaluation* to assure that you have followed all formatting guidelines. Beside each criteria, place a check mark (✓) and your initials in the box. Pay close attention to detail! Once you have completed the self-check of your thesis, sign and date this form in the space provided. Next, submit the signed checklist, along with a copy of the thesis, to your thesis chairperson for review and signature.

After the thesis chair has signed the checklist, submit one copy of your thesis by email to Theses@esu.edu with your *Thesis Formatting Checklist*. Once submitted, you will receive feedback within 48 business hours. If revisions are required, revise and re-submit to your thesis to the Office of Graduate and Extended Studies for a 2nd review. When you do receive *Final Approval*, the checklist will be signed and dated in the *Final Approval* line, and you may proceed with submitting a final electronic copy.

Reminder, submit your thesis to the Office of Graduate and Extended Studies for format review, at least two weeks prior to the end of the semester. Earlier submission is strongly encouraged.

Abstract

The abstract is to be written in paragraph form single spaced, 150 words or less, and include the following basic components:

1. Background/problem statement: What is the need and significance of your research? (i.e., Why do we care about the problem? What practical, scientific, theoretical or artistic gap is your research filling?)
2. Research methods: What procedures did you actually take to get your results? (E.g. analyzed 3 novels, completed a series of 5 oil paintings, interviewed 17 students)?
3. Results/findings: As a result of completing your research procedures, what did you learn/invent/create?
4. Conclusion/implications: What are the larger implications or significance of your findings, especially for the problem identified in the problem statement?
