ANNUAL SYSTEMATIC PLAN OF EVALUATION (SPE) FOR ACADEMIC YEAR 2020-2022

ACEN Standard 6: Outcomes

Program evaluation demonstrates that students have achieved end-of-program student learning outcome and each program outcome competencies consistent with the institutional mission and professional standards and that the outcomes of the nursing education unit have been achieved.

The nursing program has a current systematic plan of evaluation. The systematic plan of evaluation contains: a) Specific, measurable expected level of achievement for each end-of-program student learning outcome and each program outcome, b) Appropriate assessment method(s) for each end-of-program student learning outcome and each program outcome, c) Regular intervals for the assessment of each end-of-program student learning outcomes and each program outcome, d) Sufficient data to inform program decision-making for the maintenance and improvement of each end-of-program student learning outcome and each program outcome and f) Documentation demonstrating the use of assessment data in program decision-making for the maintenance and improvement of each end-of-program student learning outcome and each program outcome.
