

East Stroudsburg University of Pennsylvania

A Summary of Student Engagement Results

Student engagement represents two critical features of collegiate quality. The first is the amount of time and effort students put into their studies and other educationally purposeful activities. The second is how institutional resources, courses, and other learning opportunities facilitate student participation in activities that matter to student learning. NSSE surveys undergraduate students in their first and final years to assess their levels of engagement and related information about their experience at your institution.

Comparison Group

The comparison group featured in this report is

regional

See your Selected Comparison Groups report for details.

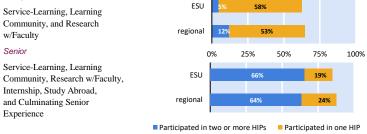

This *Snapshot* is a concise collection of key findings from your institution's NSSE 2019 administration. We hope this information stimulates discussions about the undergraduate experience. Additional details about these and other results appear in the reports referenced throughout.

High-Impact Practices

Due to their positive associations with student learning and retention, special undergraduate opportunities are designated "highimpact." For more details and statistical comparisons, see your *High-Impact Practices* report.

Academic Challenge: Additional Results

The Academic Challenge theme contains four Engagement Indicators as well as several important individual items. The results presented here provide an overview of these individual items. For more information about the Academic Challenge theme, see your *Engagement Indicators* report. To further explore individual item results, see your *Frequencies and Statistical Comparisons*, the *Major Field Report*, the *Online Institutional Report*, or the Report Builder.

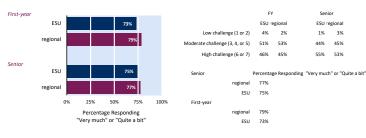

Challenging Students to Do Their Best Work

To what extent did students' courses challenge them to do their best work? Response options ranged from 1 = "Not at all" to 7 = "Very much."

Academic Emphasis

How much did students say their institution emphasizes spending significant time studying and on academic work? Response options included "Very much," "Quite a bit," "Some," and "Very little."

Item Comparisons

By examining individual NSSE questions, you can better understand what contributes to your institution's performance on the

Engagement Indicators. This section displays the five questions^a on which your students scored the highest and the five questions on which they scored the lowest, relative to students in your comparison group. Parenthetical notes indicate whether an item belongs to a specific Engagement Indicator or is a High-Impact Practice. While these questions represent the largest differences (in percentage points), they may not be the most important to your institutional mission or current program or policy goals. For additional results, see your *Frequencies and Statistical Comparisons* report.

First-year

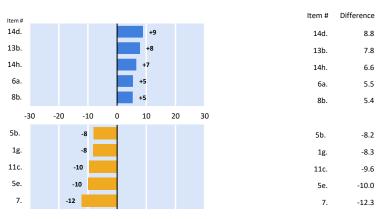

Highest Performing	Relative	to regional
---------------------------	----------	-------------

Institution emphasis on encouraging contact among students from different backgrounds...^c (SE) Quality of interactions with academic advisors^d (QI) Institution emphasis on attending campus activities and events (...)^c (SE) Reached conclusions based on your own analysis of numerical information (...)^b (QR) Discussions with... People from an economic background other than your own^b (DD)

Lowest Performing Relative to regional

Instructors taught course sessions in an organized way^c (ET)

Prepared for exams by discussing or working through course material w/other students^b (CL) Participated in a learning community or some other formal program where... (HIP) Instructors provided prompt and detailed feedback on tests or completed assignments^c (ET) Assigned more than 50 pages of writing^g

Percentage Point Difference with regional

a. The displays on this page draw from the items that make up the ten Engagement Indicators (Els), six High-Impact Practices (HIPs), and the additional academic challenge items reported on page 2. Key to abbreviations for El items: HO = Higher-Order Learning, RI = Reflective & Integrative Learning, LS = Learning Strategies, QR = Quantitative Reasoning, CL = Collaborative Learning, DD = Discussions with Diverse Others, SF = Student-Faculty Interaction, ET = Effective Teaching Practices, QI = Quality of Interactions, SE = Supportive Environment. HIP items are also indicated. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE website.

b. Combination of students responding "Very often" or "Often."

c. Combination of students responding "Very much" or "Quite a bit."

d. Rated at least 6 on a 7-point scale.

e. Percentage reporting at least "Some."

f. Estimate based on the reported amount of course preparation time spent on assigned reading

g. Estimate based on number of assigned writing tasks of various lengths

How Students Assess Their Experience

Students' perceptions of their cognitive and affective development, as well as their overall satisfaction with the institution, provide useful evidence of their educational experiences. For more details, see your *Frequencies and Statistical Comparisons* report.

Perceived Gains Among Seniors

Satisfaction with ESU

Students reported how much their experience at your institution contributed to their knowledge, skills, and personal development in ten areas. Students rated their overall experience at the institution, and whether or not they would choose it again.

	Students who had an 'excellent' or 'good' experience	Students who would 'probably' or 'definitely' go to your institution again	
regional	85%	82%	
ESU	77%	75%	
regional	85%	84%	
ESU	85%	78%

more information.

What is NSSE?

NSSE annually collects information at hundreds of four-year colleges and universities about student participation in activities and programs that promote their learning and personal development. The results provide an estimate of how undergraduates spend their time and what they gain from attending their college or university. Institutions use their data to identify aspects of the undergraduate experience that can be improved through changes in policy and practice.

NSSE has been in operation since 2000 and has been used at more than 1,600 colleges and universities in the US and Canada. More than 90% of participating institutions administer the survey on a periodic basis.
