Subject: Lyesha Fleming appointed ESU's Director of the Center for Multicultural Affairs

We are excited to announce the appointment of ESU's new Director of the Center for Multicultural Affairs and Inclusive Education, Lyesha Fleming. Lyesha has been a part of the ESU community for more than 11 years since obtaining her undergraduate degree in 2009 and joining the Student Affairs division in 2016. In her role as Resident Director and Program Coordinator for the Office of Multicultural Affairs, Lyesha developed and implemented key programs focused on educating campus constituents on cultural awareness. Lyesha received her Master's degree in both Public Administration and Social Work from Marywood University. From her social work lens, Lyesha has supported and uplifted many students at ESU to become the best version of themselves. She has been recognized by various student organizations for her leadership and guidance throughout the years.

In her new role, Lyesha will lead the strategic goals and initiatives of CMAIE while also providing oversight of the operations of the Gender and Sexuality Center. She will provide leadership for a team of brilliant professionals in these areas and enhance the overall outcomes of each department. Through a social justice framework, Lyesha will collaborate with a variety of campus partners to implement programs focused on student success, leadership and development while providing a supportive environment.

Please join me in congratulating Lyesha on her role and I invite you to reach out to her to discuss opportunities for partnership and collaboration in the upcoming year.

Dr. Santiago Solis
