### **Mission**

*The Mission of the Teacher Education Unit is to provide diverse learning experiences and dynamic collaborations that develop reflective, deliberate 21st century educators who support and extend the learning of all students in a global society.*

### **Philosophy**

*The philosophy of the Teacher Education Unit is that East Stroudsburg University (ESU) is dedicated to developing beginning educators who are reflective and deliberate decision makers. To accomplish this goal, ESU will develop educators who link theory to practice, honor diversity, integrate technology, demonstrate appropriate dispositions, observe and teach in collaborative educational settings, and reflect on both their knowledge and their teaching in a global context. This philosophy, directly underpinned by the mission and vision statements, is reflected in the following commitment statements:*

### **Goals**

*The Teacher Education Unit recognizes teaching as both an art and a science. As such, educators must continually evaluate their instruction in an effort to improve practice. The Teacher Education Unit's goals integrate its vision, mission, and philosophy for the purpose of continuous improvement. This begins at the student level as candidates learn, plan, teach, assess, and reflect. Their reflections serve not only as insights, but also as stimuli for improvement. Candidates use their reflections to inform future teaching.*

### **The Role of the Cooperating Teacher**

Cooperating teachers are critical to the success of our student teaching program. Your daily guidance assists our candidates as they transition from the role of student to teacher. Through modeling, collaboration and formal conferences, you will illustrate to our students that teaching is both an art and a science; you will exemplify to them that successful teaching is hard work that is fueled by a passion for student success. So, as you begin your journey as a cooperating teacher, we thank you for your hard work, dedication, and passion for all students – ours included!

### Beginning Educator Outcomes

East Stroudsburg University’s (ESU) Teacher Education Program is grounded in its Beginning Educator Outcomes (BEOs). These outcomes represent the knowledge and skills necessary to become a competent beginning educator. ESU believes that beginning educators must exhibit a broad and deep knowledge as well as the ability to apply that knowledge within and across many disciplines. Accordingly, all of ESU’s student teaching assessments are related to our BEOs. With this in mind, a good starting point for cooperating teachers is to become familiar with ESUs BEOs. In so doing, a common set of expectations will be established for the university supervisor, the student teacher, and the cooperating teacher.

### Beginning Educator Outcomes

Category A	Content Outcomes			
<b>1. Demonstrate general knowledge competency</b>	a. Describe, interpret, analyze and use specific concepts in the humanities, i.e. - the arts, literature, philosophy, and/or languages. b. Describe interactions that occur within and among scientific and mathematical systems. c. Describe interactions that occur within and among the social sciences, i.e., history, economics, political science, geography, and/or sociology.			
	Unacceptable	Developing	Proficient	Advanced
	Unable to demonstrate general knowledge competency.	Needed support to demonstrate general knowledge competency.	Demonstrates general knowledge competency.	Independently demonstrates general knowledge competency.

Category A	Content Knowledge			
<b>2. Demonstrate subject matter competency</b>	a. Describe, interpret, and use specific concepts in chosen field(s) of study. b. Make connections within chosen field(s) of study and among other disciplines. c. Describe and interpret the structure of chosen field(s) of study. d. Select and use tools of inquiry for chosen field(s) of study. e. Engage students in the practice of problem solving.			
	Unacceptable	Developing	Proficient	Advanced
	Unable to demonstrate subject matter knowledge competency.	Needed support to demonstrate subject matter knowledge competency.	Demonstrates subject matter knowledge competency.	Independently demonstrates subject matter knowledge competency.

Category B	Learner and Learning Environment			
<b>3. Use their knowledge of how students learn and develop to provide learning opportunities for all students</b>	a. Use theories of human development. b. Design and integrate developmentally appropriate non-instructional practices. c. Use sensitivity when addressing social issues and allow for a range of acceptable age-appropriate opinions/behaviors. d. Apply theories of intelligences-moral, emotional, multiple. e. Use, interpret and respond to verbal and nonverbal communication.			
	Unacceptable	Developing	Proficient	Advanced
	Has not demonstrated the ability to adjust the learning experience to accommodate the needs of students.	In planning and while teaching the candidate was sometimes able to detect the need for and make adjustments or rarely make appropriate adjustments.	In planning and while teaching the candidate was often able to detect the need for and appropriately make adjustments.	In planning and while teaching the candidate was consistently able to detect the need for appropriately make effective adjustments.

Category B	Learner and Learning Environment			
<b>4. Create a classroom environment that motivates and supports positive social interaction and active learning</b>	a. Recognize the worth of all students and establish an inclusive, equitable learning environment. b. Design positive, non-threatening learning environments that enable students to learn from their mistakes. c. Provide pro-social experiences that promote respect and support cooperation in the classroom. e. Employ pro-active classroom management strategies. . .			
	Unacceptable	Developing	Proficient	Advanced
	Was able to or rarely able to (a) include most of the students in the activities of the learning environment, (b) use instructional materials to enhance learning, or (c) employ a safe learning environment.	Inconsistently demonstrated and needed coaching to (a) include most students in learning environment activities, (b) implement classroom management strategies, and (c) promote a safe and respectful learning environment.	Consistently (a) included most students in learning environment activities, (b) implemented classroom management strategies, and (c) promoted and employed a safe and respectful environment.	Consistently and creatively (a) included all students in learning environment activities, (b) implemented effective classroom management strategies, and (c) designed, promoted and employed a safe and respectful environment.

Category B	Learner and Learning Environment			
<b>5. Establish instructional opportunities that demonstrate the value of diverse learners.</b>	a. Adapt instruction to meet the needs of students with exceptionalities. b. Design developmentally appropriate learning activities that challenge students and provide for success. c. Provide learning materials and activities that reflect the dynamic diversity among cultures and people. d. Enable students to explore diversity issues.			
	Unacceptable	Developing	Proficient	Advanced
	Inadequately differentiates planning and instruction for students' diverse strengths, needs and cultural styles	Differentiates planning and instruction by considering students' diverse strengths, needs, and cultural styles, but with little adeptness.	Skillfully differentiates planning and instruction by considering students; diverse strengths, needs, and cultural styles.	Demonstrates outstanding skill in differentiating instruction by considering students' diverse strengths, needs, and cultural styles and is culturally responsive.

Category C	Teaching and Learning Process			
<b>Instructional Strategies:</b>  <b>6. Use a variety of instructional strategies that engage students and foster creative and critical thinking.</b>	a. Plan appropriate instructional grouping arrangements. b. Design activities to help students develop in the cognitive, psychomotor, and socio-emotional domains. c. Use a variety of instructional strategies that engage students. d. Select, create, and utilize technology, media, and other instructional materials.			
	Unacceptable	Developing	Proficient	Advanced
	Only uses one or a dominating instructional strategy. Is unwilling/unable to use different strategies and does not use available technology or supplementary materials.	Needed support to use more than one strategy and/or teach to more than one learning style. Needs support to engage all students in activities.	Use several appropriate instructional and grouping arrangements. Teaches to all modalities. Able to creatively enhance instruction with technology and/or supplementary materials. Engages all students in activities.	Independently develops and creatively implements a wide variety of effective instructional strategies that engage all students. Provides multi-dimensional experiences by researching and incorporating technology and other resources that foster creative and critical thinking.

Category C	Teaching and Learning Process			
<b>Planning Instruction:</b>  <b>7. Plan effective and time efficient lessons that focus on student learning of specific goals and correlate directly to state/national standards.</b>	a. Identify desired results based on national and state standards and district guidelines. b. Write clear and concise student learning statements. c. Develop single subject and interdisciplinary units of study or lessons, which reflect our Learning Cycle. d. Design lesson plans that include instructional strategies compatible with chosen field(s) of study. e. Match timeframe constraints to content, student learning statements, and developmental needs.			
	Unacceptable	Developing	Proficient	Advanced
	Does not incorporate the components of an effective lesson plan. Does not submit lesson plans in a timely manner. Have lesson plans that are not correlated to district/state/national standards.	Needs support to write and deliver lessons. Learning objectives can sometimes be achieved in the allotted time frame. With support, writes clear assessable learning objectives.	Writes and presents sequential series of lessons aligned with district/state/national standards. Lessons consistently engage students within the designed time period.	Independently works and presents unique creative engaging and interactive lessons and interdisciplinary units that match timeframes and student needs.

Category C	Teaching and Learning Process			
<b>Assessment:</b>  <b>8. Use diagnostic, formative and summative assessment to plan learning experiences that meet the continuous needs of all students.</b>	<ul style="list-style-type: none"> <li>a. Implement a complete set of formal and informal assessment strategies congruent with student learning statements.</li> <li>b. Determine purpose and audience for assessment.</li> <li>c. Needed support to demonstrate professional demeanor, ethical behavior and accountability in all activities.	Demonstrated professional demeanor, ethical behavior and accountability in all activities.	Independently demonstrated a high degree of professional demeanor, ethical behavior and accountability in all activities.

## Preparing for your Student Teacher's Arrival

Once you've reviewed our beginning educator outcomes, it's time to prepare for the arrival of your student teacher. All student teachers are required to contact their cooperating teacher before they arrive. To insure a good beginning for the clinical experience, cooperating teachers are encouraged to carefully plan for the candidates first day in the school. The following guidelines may be helpful:

- a. Prepare your students by explaining that another teacher will be working with them to increase their opportunity to learn.
- b. Provide a folder of informative materials including school and class schedules, building floor plan, emergency procedures, discipline procedures, routine duties, classroom rules, discipline policies, faculty and student handbooks and clerical procedures.
- c. Create a work space where the candidate can work and keep materials, books, and supplies.
- d. Send a letter home informing parents about the student teacher.
- e. With your student teacher, produce a detailed timetable for the completion of requirements to transition the student teacher as the role of the teacher.
- f. Cooperating teacher meets with the ESU supervisor who collaborates with the co-op to guide the student teacher.
- g. Cooperating teacher conducts informal and formal observations of the student teacher twice or more per week.

## Planning, Observation, and Feedback

Planning for instruction, informal observations, formal observations, daily feedback and review of assessments are all important elements of teaching. All of these concepts are new to the beginning educator.

Cooperating teachers should make their planning for instruction “visible” for student teachers. Explain how your plans follow the district curriculum and how this curriculum is aligned to state and national standards. Explain how assessment plays into planning. Explain why you’ve selected instructional methodology and grouping arrangements of students. All of these items merge the science of instruction with the art of instruction. All of this information is valuable to a beginning educator.

Informal and formal observations should take place throughout the student teaching experience. With informal observations, there doesn’t necessarily have to be a structure or sequence to the observation. Cooperating teachers can provide feedback on items as they arise (if appropriate), at the conclusions of a lesson sequence, or whenever the cooperating teacher sees the need.

Formal observations, on the other hand, are accomplished when the candidate and the cooperating teacher conduct a pre-conference followed by an observation and then a post-conference. Post-conference discussion should emanate from pre-conference discussion. The candidate needs to be supported by a strong conference structure. It is in this phase of student teaching that candidates receive individual guidance from competent professionals that enables them to analyze their growing understanding of the relationship between theory and practice. Conferencing will enable candidates to organize, assimilate, synthesize the clinical experience and become a reflective practitioner. **Written reflections should be produced by the candidate to be assessed/reviewed by the cooperating teacher for goal setting and informed decision making for the next formal observation.**

---

**Informal observation and feedback should occur daily. Formal observation should occur a minimum of three times during the student teaching quarter.** Formal observations document a candidate’s growth and/or maintenance of selected Beginning Educator Outcomes. Cooperating teachers are encouraged to use the TEU Classroom Observation form that is downloadable through their Tk20 account. **One formal TEU Classroom Observation should be uploaded to Tk20 during the 5<sup>th</sup> or 6<sup>th</sup> week of student teaching.**

### TEU Classroom Observation

**The TEU Classroom Observation is conducted three times (each quarter)** by both the student teacher’s University Supervisor(s) and their Cooperating Teacher. As such, student teachers receive six formal observations during their student teaching experience. Additional observations are conducted both formally and informally by cooperating teachers and academic departments. Based on the Beginning Educator Outcomes, the TEU Classroom Observation assesses a myriad of skills expected of professional educators. Each observation is followed by a post-observation conference so the student teacher can refine their skills as necessary. This observation template is outlined below:

The teacher candidate used two strategies to enhance p-12 learners personal and social responsibility.	The teacher candidate used one strategies to enhance p-12 learners personal and social responsibility.	The teacher candidate failed to use at least two strategies to enhance p-12 learners personal and social responsibility.

**Additional Comments for Classroom Management:**

### **Visitations by University Supervisors**

As noted above, the university supervisor will conduct a minimum of three formal observation sessions and a final evaluation session for each quarter of student teaching.

During the first two weeks, the candidate and the cooperating teacher should be developing common ground for professional discussions and reach consensus of expectations. The student teacher should begin teaching lessons as soon as possible.

During weeks 3-5 the university supervisor should conduct one formal observation. University supervisors may wish to review cooperating teacher formal observation reports to enhance their time with the candidate.

The remaining two formal observations should occur during weeks 5-7. One to two weeks would be considered an appropriate interval between university supervisor formal observation sessions.

### **Related Professional Activities**

The candidate’s experiences should not be limited to only the cooperating teacher’s assignment. Cooperating teachers should arrange for the candidate to observe/participate in a variety of school-

related activities to enhance the candidates experiences related to the total school environment and those other teaching responsibilities. Parent teacher conferences, Back to School night, In-service programs, Board of Education meetings, PTO meetings and other special events are related professional activities that would display a professional commitment. Artifacts from such events should be placed in your portfolio.

### TEU Clinical Assessment Summary

**The TEU Clinical Assessment Summary is conducted at the conclusion of each student teaching placement by both the student teacher’s supervisor and their cooperating teacher.** As such, the student teacher receives four Clinical Assessment Summaries during their student teaching experience. As its name implies, the Clinical Assessment Summary represents a final evaluation of the student teacher’s performance. The TEU Clinical Assessment Summary is outlined below:

<b>Clinical Experience Assessment Summary</b>				
<b>Please record a score for each of the listed Beginning Educator Outcomes. Remember that you have many scores and evidence to determine a final score for each Beginning Educator Outcome.</b>

### Professional Dispositions

Understanding the impact that professional dispositions have on instructional effectiveness, East Stroudsburg University's teacher education program evaluates the dispositions of its candidates throughout its program. **During student teaching, the university supervisor, the cooperating teacher, and the student teacher complete a disposition assessment each quarter.** As such, the student teacher receives four Disposition Assessments during their student teaching semester.

## Using Tk20

Tk20 is an on-line data management system, you will be using for assessing your student teacher and for submission of your payment information. To access Tk20, put in your username and PID password. A Tk20 Work Aid is provided (see below) to guide you for assessing your student teacher. The forms you are required to complete will be in your student teacher's binder.

### **Work Aid for Cooperating Teacher: Assessing your student teachers in Tk20**

#### **I. Log In:**

- a. Log in to Tk20 at <https://tk20-1.admin.esu.edu> with your username and password.
- b. After logging in, you will see the home screen of your Tk20 account by default. The home tab includes any messages that have been sent to you and any tasks that are pending.

#### **II. Field Experience:**

- a. Click on the **Field Experience** tab.
- b. Click on your student teacher to open their binder.

- c. On the left side of the screen is the student's work and on the right side of the screen are your assessments.
- d. Click on the assessment you would like to complete.
- e. When you finish an assessment click save. You can always come back to it to add more.
- f. When all assessment are complete you can click submit to finalize your part of the binder.

### Requirements in Review

All student teacher assessments are to be completed using Tk20, our internet based data collection system. This system helps us track our students' performance and also ensures that they will have items needed to obtain certification. This system also helps us to evaluate and improve the quality of our program. Please note that there are dates for each form with regard to completion deadlines.

	<b>I've Reviewed ESU's Beginning Educator Outcomes</b>
	<b>I've prepared my room for my student teacher before their arrival</b>
	<b>I've reviewed my "binder" in Tk20</b>
	<b>I've filled out my "payment card" in Tk20</b>
	<b>I've accessed Tk20 so that I can submit the required forms</b>
	<b>I make my instructional planning "visible" for my student teacher and provide feedback to them through informal and formal evaluations.</b>
	<b>I've completed at least three formal evaluations using the TEU classroom observation form and have uploaded one during 5<sup>th</sup> or 6<sup>th</sup> week of student teaching.</b>
	<b>I've completed one TEU Clinical Assessment Summary and uploaded it to Tk20 at the end of the student teaching experience.</b>
	<b>I've completed one Dispositions Assessment and uploaded it to Tk20 during the 5<sup>th</sup> or 6<sup>th</sup> week of student teaching</b>
	<b>I've completed the Cooperating Teacher Survey in Tk20 at the conclusion of the student teaching quarter</b>
	<b>I've uploaded a letter of recommendation for my student teacher to Tk20</b>
	<b>I've filled out and uploaded any additional forms as required by each department</b>

## Facts on Forms

### **For all Co-operating teachers:**

You will have access to fill out a payment card, a Clinical Experience Assessment Summary, and the TEU (Teacher Education Unit) Observation form in Tk20. Please note the following information regarding these forms:

**Payment Card** – filled out by you and is not visible to any other users in the system except the designated staff in the Office of Field Experiences and Partnerships for processing purposes. Please fill out the payment card as soon as the binders are released, no later than **the 4<sup>th</sup> week of the quarter**. Once you click save, we will have your information for processing. Please be aware that we will continue to give Act 48 hours to our cooperating teachers as well.

**TEU Observation Form** – This form is intended for a single classroom observation (not a summary of all). It should be completed between the **5<sup>th</sup> and 7<sup>th</sup> weeks** of the student teacher’s placement with you. There is a choice of “Not Applicable” for those criterions not observed during a particular lesson.

**Clinical Experience Assessment Summary** – This form is intended as a summary of all classroom observations during each placement. It should be completed at the **end** of the student teaching placement as a summary of all observations.

**TEU Dispositions Rubric** – This is a new assessment we have added to help our students understand that one’s professional disposition is an integral part of being an effective teacher. This should be completed at the **end** of the student teacher’s placement and is a summative assessment based on all observations.

**Cooperating Teacher Survey** – This survey is completed to ensure that we receive feedback from the cooperating teachers about where we are succeeding and where we need to make improvements programmatically. This information is anonymous and is not visible to other users. This survey should also be completed towards the **end** of the student teacher’s placement.

**Optional Letter of Recommendation & Additional Observations** – Cooperating teachers can also upload a letter of recommendation for their student teacher and additional observations to the student’s electronic binder if they so desire. If a cooperating teacher does not wish to do this, they must still open and save both items to complete the systems requirements.

**Additional Forms** – There may be additional forms in your binder, such as the BEO Assessment Continuum for SPED majors and various Competency forms for HLTH & PETE majors. Please complete and save all assessments that are in your student teacher’s electronic binders.

**Please note:** any form in Tk20 should be saved once the user has started or made any changes to a form. **To save the form one is working in, he/she must click save a second time to save the form in the binder.**

The student teacher and university supervisor can view forms at any time once they’ve saved their work. If one needs to make changes, he/she can do so until they “Submit” the binder. Once all forms have been completed and the information is accurate, please “Submit” the forms. If a user accidentally hits “submit” and needs to change something, please contact the Tk20 office and we can unlock the binder for you.
