COMMENCEMENT

Saturday, May 7, 2022

Eiler-Martin Stadium

A Member of Pennsylvania's State System of Higher Education

East Stroudsburg University Commencement

Welcome to East Stroudsburg University's Commencement celebration for our graduates. Congratulations to our students who have completed their academic programs, and to their family and friends who have supported them on this journey.

Academic Procession

An usher will lead the faculty followed by the graduating students. Candidates are placed according to the degree to be conferred, and each group is preceded by a commencement marshal. Once all are seated the grand marshal leads the platform participants and the president.

Academic Attire

The tradition of academic costume began in the medieval universities of Europe where gowns were everyday dress, providing for their wearers not only distinction but, quite possibly, warmth during long hours of study in poorly heated buildings.

Today, academic attire is seen on American campuses only at formal affairs such as commencement, Founder's Day, dedications and inaugural ceremonies. In 1895, an Academic Costume Code was established, and has since been adopted by most of our colleges and universities. When the code is followed, one can identify the degree which the wearer holds, the university that awarded it, and the course of study it represents. The distinguishing features are the cut of the gown, the length and colors of the hood, and the color of the tassel on the cap.

The bachelor's and master's gowns are generally made of plain black cotton without trim, while the gown for the doctor's degree is faced with black or colored velvet and has three bars of the same material across the sleeves. The bachelor's gown has long open sleeves, the master's gown has longer closed sleeves with arm slits at the elbow, and the doctor's gown has bell-shaped sleeves extending to the wrist.

The hoods can be distinguished by both the length and color. The bachelor's hood measures three feet, the master's, three and one-half, and the doctor's, four. The color of the velvet edging, which is wider for degrees higher than the bachelor's, indicates the subject area to which the degree pertains. In addition to the colored edging, the hood shows in its lining the official color or colors of the institution which awarded the degree. The hood is worn such that a large part of the lining is visible.

The black mortarboard cap with tassel is worn with each type of gown. Those holding the doctorate wear gold tassels, while holders of the bachelor's and master's degrees generally wear a black tassel, although in recent years it has often been customary to wear the colored tassel symbolizing, like the hood, the subject area of the wearer's degree.

In nearly every academic procession, a few costumes may be seen which do not conform to the standard patterns described above. Gold braid is frequently added to the gowns of academic administrators, and most faculties include several members who hold degrees from foreign universities, some of which prescribe very colorful attire.

The following colors are associated with the various faculties. It is mandatory that they be used on hoods and optional that they be on the tassels and the velvet used with the doctor's gowns.

Faculty.....	Color
Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Dentistry.....	Lilac
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple
Library Science.....	Lemon
Medicine.....	Green
Music.....	Pink
Nursing.....	Apricot

Faculty.....	Color
Optometry.....	Sea Foam Green
Oratory (Speech).....	Silver Gray
Pharmacy.....	Olive Green
Philosophy.....	Dark Blue
Physical Education.....	Sage Green
Podiatry-Chiropractic.....	Nile Green
Public Administration including Foreign Service.....	Peacock Blue
Public Health.....	Salmon Pink
Science.....	Golden Yellow
Social Science.....	Cream
Social Work.....	Citron
Theology.....	Scarlet
Veterinary Service.....	Gray

The Presidential Medallion

The medallion, or pectoral, has long been a symbol of the rights, authority, and power of kings and queens. At the inception of the university around the year 1000 A.D., and to this day in many European institutions, the reigning monarch still functions as the chancellor of the institution, its chief executive holding appointment as vice chancellor. With the establishment of the academy independent of the crown, the royal medallion has been retained as a symbol of the responsibilities and authority vested in the office of the president of the university by the state.

The East Stroudsburg University medallion was commissioned by the Student Activity Association in 1969, and first used by President Frank D. Sills at his inauguration. It was designed by Dr. Irene Mitchel, professor of art at East Stroudsburg University, and struck by Mr. Leslie Smith, an Allentown, Pa., craftsman. The chain of the pectoral was designed and crafted by Mr. Richard E. Phillips of East Stroudsburg, Pa.

The medallion has, on its obverse, the seal of the university. The seal is surrounded by the torch and the mace representing the light of learning and the authority of the university. These two symbols are superimposed on an abstract rendition of the Delaware Water Gap, so much a part of the geography of the region. On either side of the seal are representations of the original Stroud Hall (1893) and the current Koehler Fieldhouse (1967). Below the seal are the extended rays representing the fourteen institutions of the Pennsylvania State System of Higher Education.

The University Mace

The mace was originally a weapon of hand-to-hand combat in medieval times. With the advent of firearms, such a weapon became archaic and was adopted to symbolize the power and authority of kings and queens. Early in the history of the academy, the mace was borrowed from royalty and utilized to symbolize the authority of the institution given to it by the kings and queens and hence, the state, to grant baccalaureate and advanced degrees so specified. The mace is used at all official university functions of an academic nature.

The original East Stroudsburg University mace was commissioned by the ESU Alumni Association for the inauguration of President Frank D. Sills in 1969. It was designed and created by Mr. Richard E. Phillips, a local Pocono artisan. The redesigned mace, incorporating many features of the original mace and symbolizing the achievement of university status by East Stroudsburg State College, was commissioned by the University Commencement Committee in 1987. Mr. Phillips was again requested to modify the mace to reflect the transition from college to university, and Cherry Valley artisan Abby Porter completed the silver work. The current mace is made of cherry and is approximately 38 inches long. The mace has overlays made of hemlock, dating from 1893 from the original Stroud Hall. The black and red coloring represents the school colors.

The octagonal head of the mace represents the disciplines of the traditional academy, and four disciplines of contemporary higher education: science, arts, humanities, and philosophy. Surrounding the head are silver hands bearing the names and dates of the five precursor institutions. The handle is inset in silver with black onyx and red carnelian. The university seal crowns the mace.

Honors and Honor Cords

Those students in the baccalaureate degree program who have received scholastic honors are distinguished by colored cords, and their names are noted in the program with the proper number of asterisks as shown below. There are three scholastic honor categories:

- * Cum Laude (white/gold cords) for those possessing a 3.400 to 3.599 quality point average
- ** Magna Cum Laude (black/gold cords) for those with a quality point average of 3.600 to 3.799
- *** Summa Cum Laude (red/gold cords) for those who have maintained a quality point average of 3.800 or above

Quality points are based on a four-point system in which the grade A equals 4, A- equals 3.667, B+ equals 3.333, B equals 3.000, B- equals 2.667, C+ equals 2.333, C equals 2, C- equals 1.667 and D equals 1.000. Honor awards are based on the cumulative average of the entire undergraduate program taken by the student at East Stroudsburg University. Honor designations are translated from Latin to mean with honor, with great honor, and with highest honor.

University Honors Program

Students wearing a red stole with “ESU Honors” on one side and the Latin “Veritas et Civitas” (meaning Truth and Citizenship) on the other are graduates of the University Honors Program. These students have completed a rigorous 15-credit Honors curriculum and written an Honors Thesis while maintaining a minimum grade point average of 3.5 in their Honors course work and 3.5 in their university studies overall. Honors Program graduates are noted with ★.

National and International Honor Societies

Alpha Kappa Delta	international honor society in sociology

Kenneth Long
Interim President

Kenneth Long was appointed interim president of East Stroudsburg University of Pennsylvania by the Board of Governors for Pennsylvania's State System of Higher Education, effective July 31, 2020. Long brings more than 30 years of experience in higher education to this interim post. Prior to his appointment, Long served as the university's chief administrative, financial, and operations officer. Among his many accomplishments at ESU, he has been responsible for: stabilizing the University's financial condition; lowering cost and increasing access to healthcare by partnering with a regional medical center to provide student healthcare services; conducting the university's first academic space utilization study; upgrading athletic facilities, including adding air conditioning and a generator in Koehler Fieldhouse, painting Eiler-Martin Stadium, replacing the turf for all outdoor sports, and partnering with the local municipality and little league for baseball and softball; and coordinating the construction of a new student housing, counseling center, and testing center.

Prior to his employment at ESU, Long held positions at Kutztown and Cheyney universities. He served five years as assistant vice president of administration and finance at Kutztown University and worked six months in 2012 as interim vice president for finance and administration at Cheyney University, in a loaned executive capacity. Prior to joining the State System, Long held positions at the University of Toledo, including associate vice president for budget and planning and chief financial officer for the University of Toledo Physician Practice Group, and at DeVry University as the dean of finance and administration and director of finance of the New Jersey campus.

Long earned his bachelor's degree in math and political science from Drew University in Madison, N.J. and an M.B.A. from Monmouth University in West Long Branch, N.J. He has experience teaching college courses in business administration, financial accounting, and managerial accounting and has made presentations at numerous regional and national meetings and conferences. Long is Treasurer and Executive Board member of the Eastern Association of College and University Business Officers (EACUBO), Board member of the Pocono Mountain Music Festival, President Liaison for Pennsylvania's State System of Higher Education (PASSHE) Board of Governor's Governance Committee, and chairs PASSHE's Freedom of Speech and Title VI Task Group.

Long is married to Evelyn and has three daughters, Alysha, Peyton, and Taylor.

Susan Dillmuth-Miller, Au.D., CCC-A, FAAA, Grand Marshal
University Senate President

Dr. Susan Dillmuth-Miller is an associate professor in the Department of Communication Sciences and Disorders. She is ESU's clinic audiologist and is president of the University Senate. She teaches both undergraduate and graduate courses. She has presented internationally on the effects of rheumatic disease and hearing manifestations. Scholarly endeavors include examining knowledge and attitudes of excessive noise levels and hearing protection in young adults and concussion and audiological characteristics. She advises the ESU Sign Language Club.

Andi McClanahan, Ph.D.
Faculty Speaker
Professor of Communication

Andi McClanahan, Ph.D. is a professor of communication and coordinator of the women and gender studies program. She became a faculty member at ESU in 2003. She earned her bachelor's degree from Bloomsburg University, a master's from Ball State University, and her doctorate from Ohio University—all in communication.

Since arriving at ESU, she has taught over 30 different courses including communication and rhetorical theory, popular culture, media criticism, and argumentation. Since 2005, she has worked in the summer for Junior State of America—a program focused on engaging youth in government. She has taught political communication and debate on the campuses of Yale, Princeton, and Stanford.

With over 25 academic publications and over 90 academic presentations, her research focuses on media representations of gender, romance, and alternative life choices—including the choice to remain single and childfree. She also actively studies the rhetoric of local and state politics. Her most recent accomplishment is the 2022 publication of the co-authored text, *Persuasion in Society* (4th edition).

Dr. McClanahan served as president of the Northeast Popular Culture Association and is currently an executive committee member and chair of their graduate student research awards. Dr. McClanahan is a nationally certified Be Body Positive facilitator through The Body Positive organization. On campus, Dr. McClanahan serves as the vice-president of ESU's Association of Pennsylvania State College and University Faculties (APSCUF). She is also the state-wide chairperson of APSCUF's Committee for Action through Politics. She is the faculty facilitator of ESU's Alumni Association Book Club. She is a member of the East Stroudsburg Borough's Planning Commission and Judge of Elections for East Stroudsburg Ward One. During the 2022-2023 academic year, Dr. McClanahan will be on sabbatical to research how breweries and wineries use neolocalism, branding, community activism, and coopetition to form the rhetoric of innovation.

Please note that every attempt has been made to include all graduates' names and ensure the accuracy of degrees and honors designations by the production deadline. We apologize for any omissions or errors.

Graduation is contingent upon completion of all requirements.

Thank you to all of the ESU staff and faculty who have contributed to this spring's commencement ceremonies.

Austin Weitman '22
Student Commencement Speaker
Sport Management major

Austin Weitman, a graduating senior majoring in sport management and minoring in business management from Berkeley Heights, N.J., has made the most of his ESU experience through multiple internships, leadership and mentorship positions in student organizations, volunteer activities and time spent at the Career Development Center.

"I always wanted to live in New York City and work at Madison Square Garden," said Weitman, who is participating in an internship at MSG, home of the New York Knicks of the NBA, New York Rangers of the NHL and countless concerts and special events. He has also had internships with the New York Islanders of the NHL, the Tyson Group, Uber, and worked on gamedays for a season for the New York Giants and New York Jets at MetLife Stadium.

Weitman has also been president of the Sport Management Club for three years, was president and founder of the Selling Is An Away Game Club, was marketing and social media coordinator for the Pocono Raceway College Tour Committee, and member of the Human Resources Club and Photography Club. His volunteer work includes working with the Special Olympics, ESU campus cleanup community service, and ESU's youth track and field program.

"Austin is a clear representative of what it means to be a member of the ESU student body during the challenges the Class of 2022 has faced," said Breanna Betarie, interim director of career development. "This group of students was asked to leave our campus as sophomores as they were just gaining their footing, and when they were afforded the opportunity to come back, their time was already coming to an end. Every opportunity that Austin has had is the direct result of hard work and perseverance. He has fostered relationships with extraordinary companies looking to recruit ESU talent, and has created his own unique community of mentorship where students feel empowered to ask him questions." Said Austin, "I strive to be the one who others lean on because I have been in need of others in my life."

"In my 13 years at ESU, I consider Austin to be the best sport management undergraduate student," said Jaedeock Lee, Ph.D., professor and department chair of sport management. "In every single aspect, he demonstrated excellence and set the bar high. His success and leadership also inspires his fellow students."

Loretta Erdo '01 M'06 Ed.D.'22
Graduate Student Commencement Speaker
Doctoral candidate

Loretta Erdo has spent much of her adult life pursuing higher education at ESU. She didn't finish high school and earned her GED when she was 17, but it was always her life goal to continue learning. She went back to school at age 28. While earning her undergraduate degree, Loretta, known to her friends as Sam, worked at ESU for almost 10 years as both a custodian and secretary and made many lasting friendships. She took classes on her lunch breaks while working full-time and helping raise her four daughters. Sam received her Bachelor of Science degree in secondary education and English in 2001 and a Master of Education degree as a reading specialist in 2006 from ESU. This spring, Loretta successfully defended her dissertation and achieved her latest goal of earning a Doctorate of Education. In the words of The Grateful Dead, "What a long strange trip it's been."

Sam recently retired from a 20-year teaching career as a high school English teacher and will miss her wonderful colleagues. Some of the highlights of her career were teaching American and British literature and the discussions with students that entailed. Field trips to the ESU Performing Arts Center to watch dramatic renditions of literary works read in class were always entertaining experiences for both students and teacher.

Sam lives in East Stroudsburg with her husband Chuck (her biggest cheerleader) and their beagle Stache. Sam has four grown daughters who are a source of immense pride - Jennifer, Lori, Jessica, and Kristin. She also takes much pride in her six grandchildren: Nicholas, Jacob, Alyssa, Grace, Emily, and Chase.

Peter G. Schweyer
2021-2022 Legislative Fellow

Representative Schweyer was elected to represent the 22nd Legislative District in 2014. He serves as a deputy whip in the House Democratic Caucus and is a member of the House Appropriations, Committee on Committees, Consumer Affairs, Ethics and Professional Licensure Committees. He is also Vice-Chairman of the House Democratic Policy Committee and also serves as the Minority Chair for the House Consumer Affairs Subcommittee on Utilities.

Representative Schweyer's legislative priorities include protecting and expanding access to health insurance, appropriately funding PA's public schools and supporting policies to spur the creation of more family-sustaining jobs in the Lehigh Valley. He supports increasing Pennsylvania's minimum wage, continued criminal justice reform, investment in sustainable, alternative energy and initiatives to better serve our veterans. Schweyer also serves on several community organizations that strive to improve the quality of life in Allentown and surrounding communities. Most notably, Schweyer is a past board member and past chairperson of the Lehigh and Northampton Transportation Authority (LANTA).

Born and raised in Allentown, Schweyer is a graduate of Allentown Central Catholic High School and the Pennsylvania State University, State College, where he earned a Bachelor of Science degree from the Schreyer's Honors College. He went on to study elementary education at St. Joseph's University in Philadelphia at the post-graduate level. Prior to being elected to represent the 22nd district, Schweyer worked as director of community and government affairs for Sacred Heart Hospital in Center City Allentown, directing the hospital's community health and community development initiatives. Immediately prior to his service with Sacred Heart Hospital, he served as chief of staff to former state Rep. Jennifer L. Mann for eight years. He had also served as legislative assistant for two other members of the Pennsylvania General Assembly and had been a schoolteacher in the Philadelphia School District as a cohort member of the Teach Philadelphia program.

Schweyer and his wife, Jennifer, are the proud parents of Sarah and Erin, who both attend Allentown public schools.

Kevin Casebolt, Ph.D., and Gene White, Ph.D., College of Health Sciences

Sign language interpreters are Francesca Rhoads and Walter McRae.

Please turn off cell phones during the Commencement Ceremony. Thank you.

Candidates for Doctoral Degrees

DOCTOR OF EDUCATION

**Loretta Ann Erdo**

B.S., East Stroudsburg University of Pennsylvania, 2001

M.Ed., East Stroudsburg University of Pennsylvania, 2006

Dissertation: Emergency Remote Learning: Teaching in the Time of COVID-19

Chair: Dr. (Mary) Elizabeth Azukas

Loretta A. Erdo received her Bachelor of Science degree in secondary education / English in 2001 and a Masters in Education as a reading specialist in 2006 from East Stroudsburg University. While earning her undergraduate degree, Loretta, known to her friends as Sam, worked at ESU for almost 10 years as both a custodian and secretary. She has recently retired from a 20-year teaching career

as a high school English teacher. Sam lives in East Stroudsburg with her husband Chuck (her biggest cheerleader) and their beagle Stache. Sam has four grown daughters who are a source of immense pride – Jennifer, Lori, Jessica, and Kristin. She also takes much pride in her six grandchildren: Nicholas, Jacob, Alyssa, Grace, Emily, and Chase.

Dissertation Abstract: When the coronavirus pandemic forced schools to close in the spring of 2020, educators needed to move into remote teaching with very little notice. The purpose of this mixed method action research study was to identify how teachers maintained instruction during the emergency remote learning environment due to the COVID-19 school closings. Further, the study sought to determine teachers' perceptions on the successes and challenges of the remote learning process during this period.

The study was conducted in a rural northeastern Pennsylvania school district of approximately 3,000 students. Sixty-five public school teachers participated in an online survey and 13 participated in semi-structured follow-up interviews. The researcher used descriptive statistics to analyze the quantitative data and the grounded theory method to analyze the interviews. The results of the data revealed that teachers used a variety of resources and pedagogical strategies to provide engaging lessons for their students. Other findings revealed that teachers were concerned about their students' well-being and maintained frequent communication with students and parents. Results of the study indicate the importance of the following: flexibility for students, ongoing technical training for teachers, and frequent communication among students, teachers, parents, and administrators.

Candidates for Doctoral Degrees

DOCTOR OF EDUCATION

Alison Marie Jochen

B.S., University of Delaware, 2005

M.Ed., Lock Haven University of Pennsylvania, 2018

Dissertation: Medical Cannabis Policy in K-12 Schools: School Nurse Perspectives

Chair: Dr. Diane M. Holben

Alison Jochen is a Certified School Nurse at Pleasant Valley Elementary School. Prior to becoming a school nurse, Alison worked as an emergency room nurse for 10 years. She holds a Master of Education degree that she earned from Lock Haven University of Pennsylvania in 2018. Alison received her school nurse certification in 2014 from Slippery Rock University of Pennsylvania.

She is also a graduate of the University of Delaware, where she received her Bachelor of Science in nursing in 2005. She was previously enlisted in the Army National Guard and played the trumpet in the 287th Army Band. Alison is an avid runner, having competed in cross country and track and field events at the high school and university level. Alison enjoys spending time with her family, cooking, and exploring the great outdoors. She resides in northeast Pennsylvania with her husband Michael and their three children, Kiera, Benjamin, and Zachary.

Dissertation Abstract: School nurses advocate for students who have varying medical needs, and frequently participate in development of school policies that affect student health. As states nationwide legalize cannabis for medicinal and recreational use, K-12 health policy is entangled with competing voices and conflicting stakeholder ideas. According to Kurt Lewin's Theory of Planned Change, various restraining forces may serve as barriers to the development of cannabis policy in the K-12 setting, specifically, knowledge deficits, stigma, stakeholder collegiality, federal status, and safety concerns.

To understand the influence of these restraining forces, a Likert-style questionnaire measured school nurse perceptions of these forces. Findings revealed that most districts do not have a medical cannabis administration policy regardless of state cannabis laws. Overall, the perceptions of nurses from states where cannabis is legal express significantly less concern than nurses from illegal and medical only states for the restraining forces of safety, stigma, and federal status. Conditions identified by nurses as warranting appropriate for medical cannabis included seizures, pain, psychiatric conditions, and cancer. Implications for practice include continuing the discussion of medical cannabis policy, collaboration with stakeholders, educating those involved at the forefront, and reclassification of cannabis from a Schedule 1 substance.

Candidates for Doctoral Degrees

DOCTOR OF EDUCATION

**Alicia A. Knauff**

B.A., Cedar Crest College, 2001

M.Ed., DeSales University, 2007

Dissertation: Uncovering the Hidden Voices Between the Walls of a Suburban Public High School Through Participatory Action Research

Chair: Dr. Diane M. Holben

Alicia Knauff is an assistant principal at her alma mater, Whitehall High School in Whitehall, Pa., where she is life-long resident. After graduating from Cedar Crest College in 2001, she began her teaching career in the Allentown School District. After earning her master's degree in TESOL from

DeSales University, she began in the Whitehall-Coplay School District in 2006 and later earned her principal certification from Cabrini University before beginning the doctoral program at ESU. Most importantly, she is the proud mother of three girls – Shadimon, Amaya and Jade.

Dissertation Abstract: Highlighting the importance of student voice, this participatory action research study uncovers the perceptions, truths, and first-hand experiences of Black and Brown students in their public high school. The increase in national attention to racial inequities in America, and more specifically, within the field of education highlights the systematic racial inequities that deny Black and Brown students of the same educational experience as their White peers. The sample size included 10 students of color who attend a suburban high school with primarily white faculty and staff. Data was collected through one-on-one interviews and focus groups.

Analysis of the data employed critical race discourse analysis methods to determine themes in the perceptions of Black and Brown students who experience our educational system on a daily basis. The findings indicate Black and Brown students are yearning to be heard. All of the participants stated they feel their voice isn't acknowledged and that they aren't truly understood by their white counterparts nor school personnel. Through the lens of critical race theory, the researcher gained insight from the voices of historically marginalized students that may inform change efforts designed to reduce inequity and build a safe, supportive school culture.

Candidates for Doctoral Degrees

DOCTORATE OF HEALTH SCIENCES

**Glorianne Dziuba**

B.S., Mansfield University of Pennsylvania, 2010

M.S., SUNY – Oneonta, 2011

Dissertation: The Effects of Ten Hour Early and Delayed Time Restricted Eating on Body Weight and Risk Factors for Metabolic Syndrome in Overweight and Obese Women Over the Age of Forty

Chair: Dr. Shala Davis

Glorianne Dziuba is an assistant professor and chair of the Department of Nursing and Allied Health Science at Mansfield University of Pennsylvania, where she teaches in the nutrition and community health education programs. Glorianne is a Registered Nurse and Registered Dietitian Nutritionist, is board certified in advanced diabetes management and is a Community Health Education Specialist. She and her husband Steve live in Mansfield, Pa. where Steve owns and manages a third-generation house moving business, Dziuba and Son, Inc. They are most proud of their four children who are now out of the nest and making positive contributions in the world. In her spare time, Glorianne enjoys playing piano, choral singing, cooking, hiking, and gardening.

Dissertation Abstract: Typical treatment modalities for obesity are often difficult to adhere to long-term. This has revealed a need for alternative dietary control methods that are easily understood and implemented. Previous studies have demonstrated that restricting dietary intake to an eight-hour period each day followed by a 16-hour fast often results in loss of body weight and improvement in biochemical parameters in the absence of calorie or food restriction. A longer eating window may prove to be more sustainable. In this six-week study, overweight women (n=21) age 40+ were randomly assigned to a 10-hour early time restricted eating pattern that started before 8:00 a.m., a delayed 10-hour time restricted eating pattern that started after 11:00 a.m., or a control group.

At the end of the six-week period, there were clinically significant changes in muscle mass, waist circumference, fasting blood glucose, systolic blood pressure (BP), and diastolic BP in both time restricted groups compared to the control. From pre- to post-testing, those in the early time restricted eating group demonstrated statistically significant changes in waist circumference ($p=.035$), fasting blood glucose ($p=.013$), and HDL-Cholesterol ($p=.018$) with clinically relevant trends in muscle mass, HDL cholesterol, systolic blood pressure, and diastolic blood pressure. In the delayed eating group, there were clinically relevant trends pre- to post-testing for weight, waist circumference, fasting blood glucose, total cholesterol, HDL cholesterol, LDL cholesterol, systolic blood pressure, and diastolic blood pressure. These findings may demonstrate that 10-hour time restricted eating effectively improves health outcomes regardless of the time of day being implemented.

Candidates for Doctoral Degrees

DOCTORATE OF HEALTH SCIENCES

**Elaine Rodriguez**

B.S., University of Puerto Rico – Rio Piedras, 1981

M.P.H., East Stroudsburg University of Pennsylvania, 2002

Dissertation: Assessing the Prevalence of Burnout among Health Administrators in Puerto Rico and Their Coping Strategies during COVID-19

Chair: Dr. Shala Davis

Mrs. Elaine Rodriguez has a bachelor's degree in natural science from the University of Puerto Rico and a Master of Public Health from East Stroudsburg University. From 2002 to the present, Elaine has worked at ESU serving in various capacities that include instructor, research assistant, assistant to the dean of the College of Health Sciences, coordinator of study abroad programs, internship coordinator, clinical liaison, and liaison between ESU and UPR. Some of her professional accomplishments include the publication of "The Quality of Spanish Health Information Websites: An Emerging Disparity" in the Journal of Prevention and Intervention in the Community, and two health needs assessments completed in foreign countries with the first focusing on the Lou Tribe in Kenya and the second on the population in Antigua, Guatemala. The most recent research is "Assessing the Prevalence of Burnout Among Health Administrators and Their Coping Strategies during COVID-19."

Dissertation Abstract:**Introduction:**

The purpose of this study is to assess the level of burnout, rank stressors, and identify coping strategies among health administrators during the COVID-19 pandemic. Several studies have been conducted on levels of burnout among frontline workers; however, there is a literature gap on burnout within health administrators.

Methods:

This is a cross-sectional mixed methods study. The survey was conducted between July and October 2021. Quantitative data was collected using the Maslach Burnout Inventory-General Survey (MBI-GS), two questions on the level of burnout, and a list of stressors. Qualitative data was collected with four open-ended questions. Quantitative data were analyzed through descriptive and inferential statistical techniques. Qualitative data was coded to derive major and minor themes.

Results:

A total of 68 (a return rate of 16%) were submitted. Results showed that 64.2% administrators are experiencing burnout. The pandemic was considered a contributor of burnout with 61% of the participants agreeing. There was no significance between the years in the position and the level of burnout. Analysis of the MBI-GS survey showed that on average all workers sometimes experienced exhaustion, while senior and frontline leaders sometimes experienced cynicism, and all respondents often felt positive about their professional efficacy. The three top stressors were staff, safety, and facility resources. Coping strategies were management, leadership, organizational, and communication/listening.

Discussion:

Health administrators have experienced some level of burnout. Coping mechanisms employed during this time appear to have contributed to the low levels of exhaustion and cynicism, and high levels of professional efficiency.

Graduate Scholarships for 2021-22

DR. ELI BERMAN ENDOWED SCHOLARSHIP I & II

Recipients: Christina M. Caravella and Dyamon Curtis

Dr. Eli Berman is a retired ESU professor of exercise science. He spent a large part of his career as a cardiologist and internal medicine specialist in practice with Medical Associates of Monroe County in East Stroudsburg, Pennsylvania. This scholarship is awarded to two clinical exercise physiology students each spring.

Dr. LEROY J. KOEHLER GRADUATE STUDENT SCHOLARSHIP

Recipient: Aline Finch

Leroy J. Koehler was a long-time member of the Social Studies faculty at East Stroudsburg State Teachers College. He served as President of the College from 1956 to 1968, during which time the institution's name was changed to East Stroudsburg State College. The scholarship is awarded each spring for the following academic year. This year's recipient is a graduate student in the sport management program.

JAMES C. RUTHERFORD, JR. M'09 BIOLOGY GRADUATE ENDOWED SCHOLARSHIP

Recipient: Michael J. Bodnar

The scholarship was established by James and Lael Rutherford in memory of their son, James C. Rutherford, Jr., Class of 2009. Recipients are selected by the East Stroudsburg University Biology Department Scholarship Committee. Preference is given to students who are working on their thesis or research project. Recipients are highly encouraged to present their findings at a biological conference. The scholarship is awarded to a biology graduate student each academic year.

MARY SUE '60 M'69 AND LOUIS BALDUCCI ANNUAL SCHOLARSHIP

Recipients: Justin P. Huber and Ryan Weise

The scholarship was established by Dr. Mary Sue and Louis Balducci. Dr. Balducci received her undergraduate degree from East Stroudsburg University of Pennsylvania in 1960 and her Master's Degree from East Stroudsburg University of Pennsylvania in 1969. Recipients are selected by the Graduate Advisory Council Scholarship Committee. Applicants must be enrolled as a graduate student in the Exercise Science or Sports Management programs and must have a minimum of six credits earned at East Stroudsburg University of Pennsylvania with two years of work experience in a related field. Applicants must submit an academic resume of their achievements throughout their college career. Preference is given to students not in the graduate assistantship program and whose academic resume is accompanied by a letter of recommendation by an East Stroudsburg University of Pennsylvania faculty or staff member.

GEOGRAPHY GRADUATE ANNUAL SCHOLARSHIP

Recipient: Mengtian Wu

Established to provide support to first year Master's degree students enrolled in the Professional Science Master's Degree Program, recipients must be enrolled in the Professional Science Master's Degree Program with a concentration in Geographic Information Systems. Preference will be given to students who hold an undergraduate degree from ESU. A minimum GPA of 3.0 is required. Selected by the ESU Geography Department Scholarship Committee.

DR. ROSE MATTIOLI ANNUAL SCHOLARSHIP

Recipient: Kelly A. Berger

Established in honor of Dr. Rose Mattioli by the Mattioli Foundation, recipients must be enrolled in the Master of Science degree in Management and Leadership with a preference for the concentration in Organizational Behavior. Recipients must be female students in good academic and social standing. Selected by the Dean of the College of Business and Management.

RYAN J. YANOSHAK M'05 ANNUAL SCHOLARSHIP

Recipient: Amber R. Neumann

Established in memory of Ryan J. Yanoshak M'05, recipients must be graduate students majoring in Sport Management. Preference will be given to graduate students interning in the ESU Sports Information Department. If there is no intern for Sports Information the award will be made to a worthy graduate student majoring in Sport Management who has demonstrated an interest in sports, media or sports management. The scholarship is renewable as long as funding is available and the recipient continues to meet the criteria. Selected by the ESU Sport Management Department Scholarship Committee.

The Alma Mater

Alma Mater, thy halls so majestically stand
In the midst of a landscape unique,
Through the seasons we toil with our bodies and minds
In pursuit of the wisdom we seek.
A mystical charm binds thy children to thee,
Each incoming class feels its spell;
Those who leave thee regretful thy beauties recall,
Which deep in their memories dwell.

(Patrick Conny, 1912)

A photographer from GradImages is present at today's ceremony. Each graduate is photographed as he or she crosses the stage.

East Stroudsburg University of Pennsylvania is committed to equal opportunity for its students, employees and applicants. The university is committed to providing equal educational and employment rights to all persons without regard to race, color, sex, religion, national origin, age, disability, sexual orientation, gender identity or veteran's status. Each member of the university community has a right to study and work in an environment free from any form of racial, ethnic, and sexual discrimination including sexual harassment, sexual violence and sexual assault. (Further information, including contact information, can be found on the university's website at esu.edu/titleix.) In accordance with federal and state laws, the university will not tolerate discrimination.

This policy is placed in this document in accordance with state and federal laws including Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the Civil Rights Act of 1991 as well as all applicable federal and state executive orders.
