

If video does not play in the room

If video does not provide playback in the room, please check the following steps to see if any of these provide a fix to your issue:

- Check to see if the system is powered on.
- Make sure you can see the system on the monitor.
- Is the laptop/PC that you plan to use being selected?
- Make sure all the connections to all devices are secured.

If any of the options above do not fix your issue, please watch the attached video to provide a more detailed walkthrough for fixing your issue.
