Fortinet VPN Client instructions for Windows

5. Look for FortiClient icon on your desktop and double click to open, if you don't see it, look in your start menu

6. Once open, login with your ESU Credentials

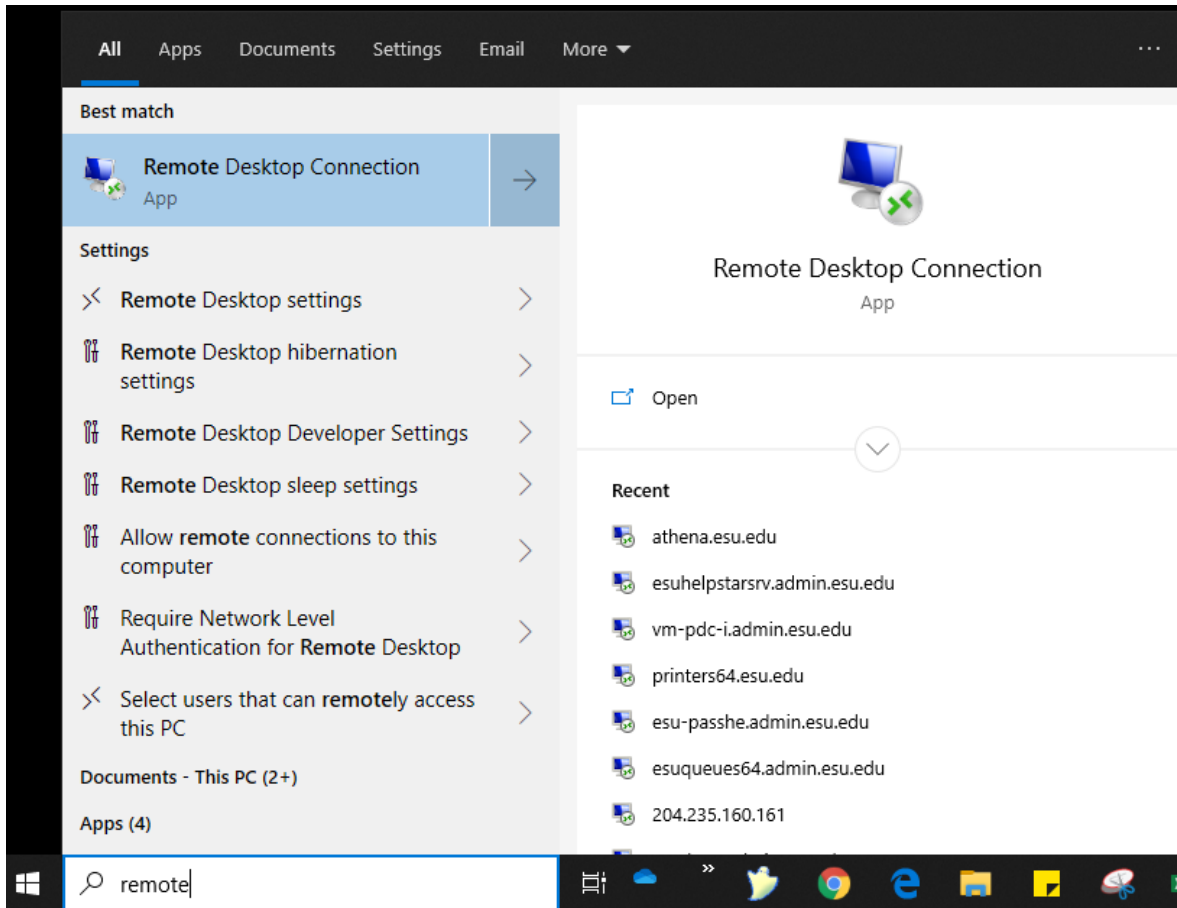

Once connected, you will be able to use Remote Desktop Connection to connect to your computer, Banner or SAP.

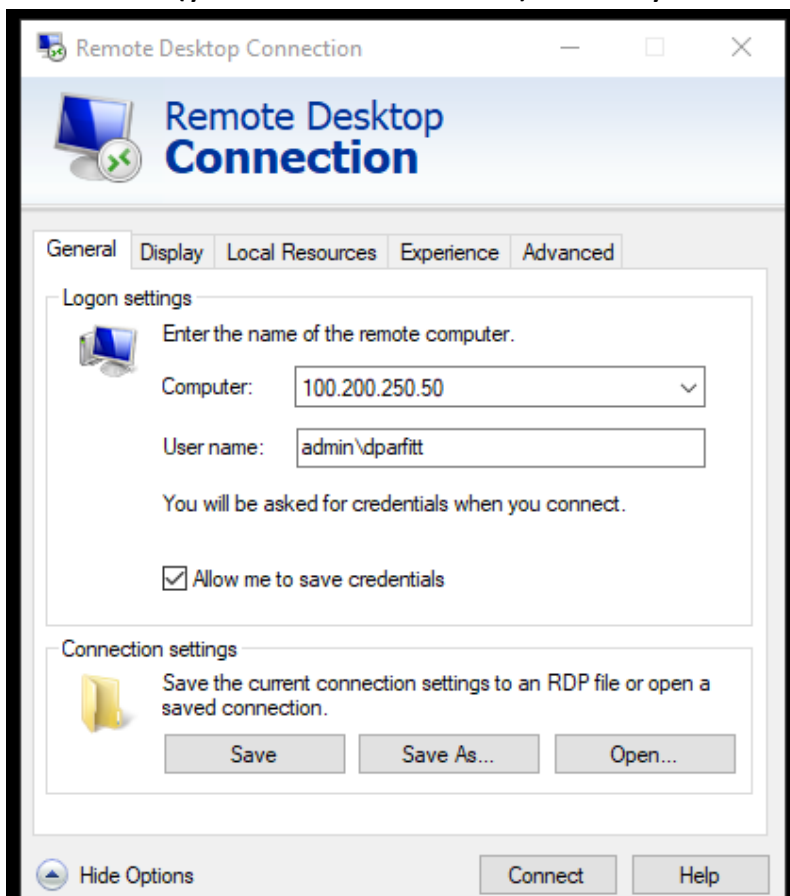

Fortinet VPN Client instructions for Windows

Please read configuring your office pc for Remote Desktop Connections to ensure these next steps work successfully.

7. To remote into your pc after connecting to ESU VPN, click on the start button, type in remote desktop and click Remote Desktop Connection

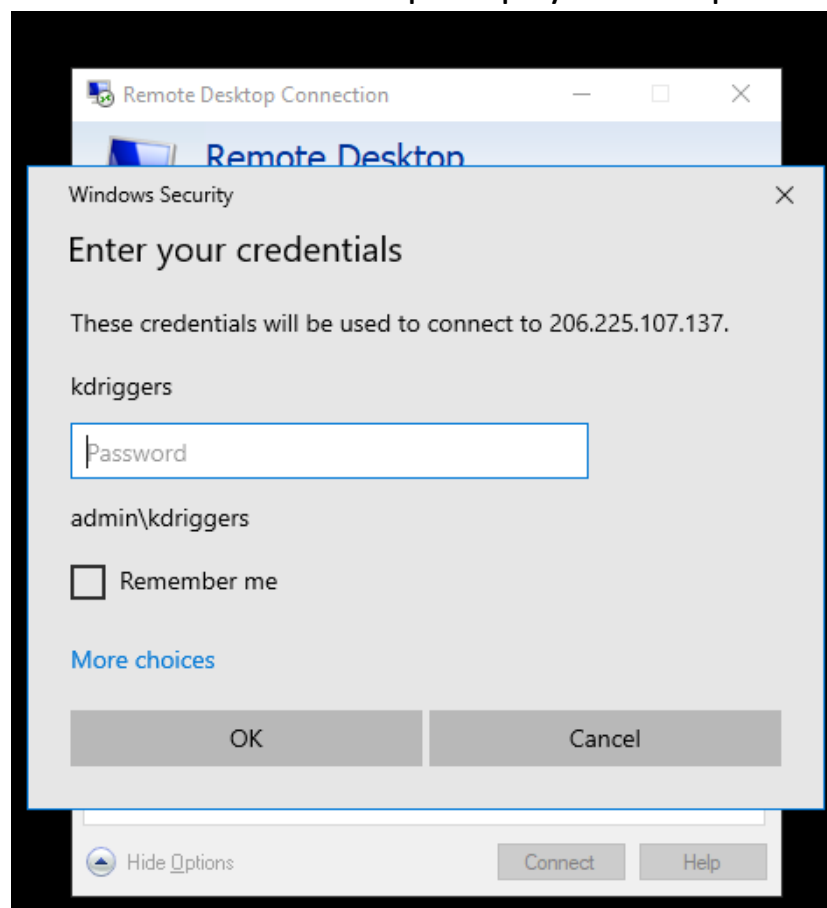

8. Click show options on the bottom left; In the computer field type in your ip address that you recorded; type in admin\your esu username) and if you want (optional) click Allow me to save credentials.

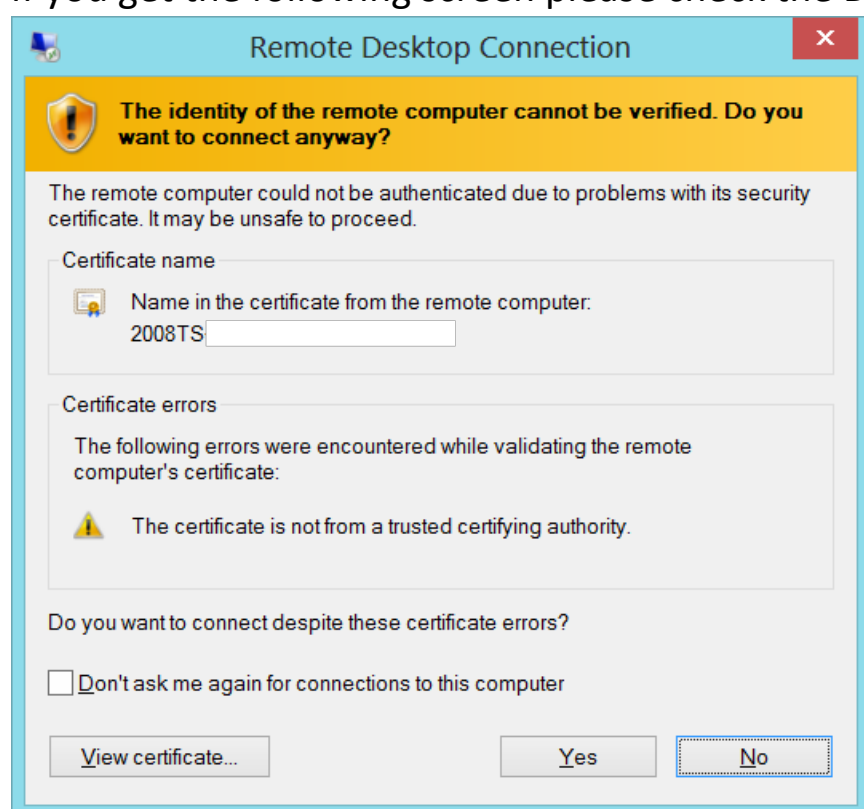

Fortinet VPN Client instructions for Windows

9. The next screen will prompt you for a password for your admin\username account

***If your username isn't showing please click more choices, then use a different account to be able to enter your ESU credentials (esu username and password) don't forget to add admin\ in front of your username.

If you get the following screen please check the Don't ask me again.. box and click yes.

You should see your desktop as you left it. When you are finished please close the connection and disconnect from the VPN.

To disconnect from VPN please use steps 2 and 3, select ESU Network, and click disconnect.
