

Comments/Updates to the Facilities Master Plan

1. Was CFRED part of the Master Plan?

No. The building on State Route 447 was constructed by a university affiliated, non-profit, entity (Center for Research and Economic Development) and not by the East Stroudsburg University. It was therefore not included in the scope of work for the design professionals (H2L2) and excluded from the master plan. The university currently leases the entire space with the intent to purchase the building and will subsequently incorporate it into the comprehensive master plan.

2. The circle was supposed to be converted to visitor parking. Why wasn't it?

Having taken into consideration the fact that all visitors are required to obtain a parking tag from the University Police, a designated visitor parking area has been created near the Campus Police Headquarters. It may be noted that parking improvements on campus are constantly being reviewed and revised to meet our changing needs.
