Dear Student:

Congratulations and welcome to East Stroudsburg University. The Student Health Services staff and Lehigh Valley Health Network-Pocono Express Care is already beginning to plan for your arrival and is looking forward to meeting you in the near future. We have a variety of services to offer you including quality affordable health care, and health promotion/wellness opportunities. Listed below is some important information for your consideration:

• Health Services strongly recommends that you submit the Report of Medical History form, which include your immunization history prior to entrance to the university. There are many areas of study that will require this information during your course of study including education, the health sciences, (such as nursing, psychology, speech and hearing, athletic training, and exercise science), and many internships and academic placements. We recommend that you gather this information and submit it before you begin to avoid postponements in your class schedules.

• It is very important for parents of students who are less than 18 years old complete page one of the Report of Medical History form and sign the consent for treatment.

• Pennsylvania law requires all students residing in university owned housing to have received meningitis vaccination or be informed of the risks and benefits of the vaccine. This information is to be completed when you submit your housing application.

• All intercollegiate athletes are required to submit the physical examination contained in the Report of Medical History form due July 21 for Fall Semester, or January 1 for Spring Semester. The physical exam must be completed within 6 months of the start date of your sport.

All international students are required to submit the Report of Medical History form with up to date immunizations prior to entrance to the university (including Measles, Mumps, Rubella, Tetanus/Diphtheria, and Tuberculosis testing or negative chest x-ray within the past year). Immunization information must be in English. It is important that you complete the form while you are in your home country as medical services in the USA can be very costly and may be difficult for you to obtain here. The Report of Medical History form is due July 21 for Fall Semester, or January 1 for Spring Semester.

If you have any questions or concerns, please feel free to call us at 272-762-4378 or visit the Student Health Services. We look forward to taking care of your health care needs.

Sincerely,
The Student Health Services Staff
**REPORT OF MEDICAL HISTORY**

Mandatory for International Students (other students may be required for class scheduling of some academic majors, i.e., Education, Health Sciences, other, etc.)

**MEDICAL RELEASE STATEMENT**

By signing this, I affirm that all information in this document is correct and complete. I also agree to inform the Student Health Center of any changes in my health or in the information on this form. I grant permission to the staff of Student Health Services to render any treatment necessary. I understand under certain circumstances or emergencies, I may be referred to a hospital, diagnostic testing, or a medical specialist for diagnoses and/or treatment. Costs incurred for these services are the responsibility of the patient and I will be responsible for all bills incurred that are not covered by my health insurance carrier.

I authorize release of my medical records and information to my insurance company for the purpose of reimbursement. I authorize the release of my medical records and information to a licensed physician, hospital, clinic, other medical personnel, including University Athletic Training Services and Counseling and Psychological Services, in the event of an emergency or continuation of care.

This authorization shall remain in effect while enrolled at East Stroudsburg University or written withdrawal of consent is received at Student Health Services.

REQUIRED IMMUNIZATIONS:

*May attach official copies of reactive Titer test results, in lieu of vaccination dates, for MMR, and Tetanus.

1. MMR (MEASLES / MUMPS / RUBELLA) Students born before JANUARY 1956 are exempt from MMR vaccinations

   Date: #1 ____________________________ #2 ____________________________

2. TETANUS / TOAP (within past 10 years) Date: ____________________________

3. TUBERCULOSIS Screening:
   TBPPOTEST done within past year: OATE GIVEN: OATE REAO: ________ RESULTS: ________mm Negative, ________mm Positive
   OR QUANTIFERON Test OATE: ________ Results: ____________________________
   O Attach Coov of Report of Chest X-ray for positive PPD or positive Quantiferon test DATE: ____________________________

4. MENINGOCOCCAL QUORIVALENT A, C, Y, W-135: (after age 16) 0 YES Date: __________ ONO
   (Required if living in University owned housing)

MENINGITIS WAIVER: Student has been advised of the risks associated with meningococcal disease, the availability/effectiveness of the vaccination, and has decided not to receive the vaccine, or has received the vaccine before age 16.

June 26, 2002, Pennsylvania passed legislation (Senate Bill 955) requiring all students living in university residence hall/housing, to either have the vaccine or sign a declination statement after having received information concerning the benefits of receiving the meningitis vaccine.

College students are at increased risk for meningococcal disease, a potentially fatal bacterial infection commonly referred to as meningitis. In fact, freshmen living in residence halls are found to have a six-fold increased risk for the disease. The American College Health Association (ACHA) and the Center for Disease Control and Prevention (CDC) recommend that college students, particularly students living in residence halls, learn more about meningitis and vaccination. At least 70% of all cases of meningococcal disease in college students are vaccine preventable.

- **What is meningococcal meningitis?** Meningitis is rare but when it strikes, this potentially fatal bacterial disease can lead to swelling of fluid surrounding the brain and spinal column as well as severe and permanent disabilities, such as hearing loss, brain damage, seizures, limb amputation and even death.

- **How is it spread?** Meningococcal meningitis is spread through the air via respiratory secretions or close contact with an infected person. This can include coughing, sneezing, kissing or sharing items like utensils, cigarettes and drinking glasses.

- **What are the symptoms?** Symptoms of meningococcal meningitis often resemble the flu and can include high fever, severe headache, stiff neck, rash, nausea, vomiting, lethargy and confusion.

- **Who is at risk?** Certain college students, particularly freshmen who live in residence halls, have been found to have an increased risk for meningococcal meningitis. Other undergraduates should also consider vaccination to reduce their risk for the disease.

- **Can meningitis be prevented?** A safe and effective vaccine is available to aid in protection against four of the five most common strains of the disease (NC/Y/W-135). Adverse reactions to the meningitis vaccine are mild and infrequent, consisting primarily of redness and pain at the injection site and in rare cases, a fever. As with any vaccine, vaccination against meningitis may not protect 100 percent of all susceptible individuals. The vaccine does not protect against viral meningitis.

- **Why is a booster shot being recommended now?** When MCV4 was first recommended for adolescents in 2005, the expectation was that protection would last for 10 years; however, currently available data suggest it wanes in most adolescents within 5 years. Based on that information, a single dose at the recommended age of 11 or 12 years may not offer protection through the adolescent years at which risk for meningococcal infection is highest (16 through 21 years of age). If we didn’t recommend a booster dose, adolescents at highest risk would not be well protected.

For more information: to learn more about meningitis and the vaccine, visit the Student Health Center or call 272-762-4378. You can also visit the websites of the Centers for Disease Control and Prevention (CDC). [https://www.cdc.gov/vaccines/hcp/vis/vis-statements/mening.html](https://www.cdc.gov/vaccines/hcp/vis/vis-statements/mening.html) and the American College Health Association, [www.acha.org](http://www.acha.org). Contact your family physician to find available vaccination centers.
East Stroudsburg University
Immunization Exemption

(International Students may only be exempted from Immunizations for medical contraindication)

To be completed and signed by a Medical Care Provider and the Student

CHECK ONE

1. PERMANENT medical contraindication (state vaccine): ________________________________
   Explanation ________________________________________________________________

2. TEMPORARY medical contraindication (state vaccine): ________________________________
   Explanation ________________________________________________________________
   Anticipated Date of End of Exclusion ____________________________________________

3. DECLINED VACCINE for personal or religious reasons:
   The Student has been advised of the risks, the effectiveness, and availability of vaccines and has decided not to receive the vaccine(s) checked below:
   - Hepatitis B
   - Tetanus/Diphtheria
   - Pertussis
   - Measles
   - Mumps
   - Rubella
   - Varicella
   - Meningococcal Quadrivalent A, C, Y, W-135 (after age 16)

   o Tuberculosis testing:
   (Non-US born students, International students, and high risk students may not be exempt. TB testing is required for health and education related major.) http://www.achora/Publications/docs/ACHA_Tuberculosis_Screening_Apr2011.pdf
   I am unable to comply with the East Stroudsburg University Immunization Policy as set forth in ESU-SA-2101-017. I understand that if an outbreak of communicable disease occurs I may be required to leave campus immediately for a period of time determined by the University. This may negate my attending classes for this period of time.

   ** Student Signature (REQUIRED) Date

   *** Signature of MD, NP, PAC, NP (Stamp not accepted) License# Date
