

East Stroudsburg University
Plan for
Mathematical Skills Competency Requirement – Level 2

Student _____ Student ID # _____
Major _____
Advisor _____

According to the policy that is part of the University's Basic Mathematics Skills Competency Requirement, you are required to include MATH 090 in your registration for the FALL 2019 semester in order to have the hold on your registration lifted. There are some other options available, as outlined below. However, whichever option you choose, if you have not satisfied the Competency Requirement by the start of the FALL 2019 semester, you are required to take MATH 090 during the FALL 2019 semester.

I intend to: (Select one)

___a. Take the ESU Basic Mathematics Competency Exam – see www.esu.edu/math for a schedule of upcoming exams

___b. Enroll in ESU Math 090 for the Fall 2019 semester (You must add your name to the list for this course at the Math department – 118 Science & Technology Center.)

___c. Provide evidence to the Mathematics Department to show the mathematics competency requirement has been satisfied (Math SAT of 500 or higher, or an acceptable transfer course)

I understand that if I have not satisfied the requirement by the next registration period, I will not be permitted to register. A hold will be placed on my registration. Further, I understand I must satisfy the mathematical skills competency requirement to graduate from ESU.
