

How to Use Your OASIS Testing Accommodations for Online Exams

1. Talk to your professor at least one week prior to the exam and tell him/her that you want to use your extra time accommodation for the test.
2. You are responsible to find a quiet and less distracting testing setting.
3. Most exams will be on D2L and the professor will then adjust your test time to reflect your accommodations.
4. Keep in mind that when using D2L the test time on the screen will reflect the time that all other students get for the test. The difference is your test will not time out when it reaches zero. You will get either an additional 50% or 100% extra time and then your exam will time out.
5. Watch your own clock to keep track.

OASIS is open Monday – Friday from 8:00 am – 4:30 PM. Feel free to contact me if you have any questions.
