

Improving Your Program Assessment Reports

Thursday, September 18, 2014

Stroud 314 Computer Lab

2:00pm

Adam McGlynn (Political Science) and Debra Ballinger (Exercise Science) share what the UAC has learned from reviewing reports across campus.

This is an opportunity to learn from others' experience. It is designed as a chance to work on reports, ask questions, and get real-time help before reports are due later in the semester.

Bring your draft reports, questions, and suggestions, and let's start the new assessment year off right!

Reports are due **October 1** for all unaccredited undergraduate programs.

Questions? Contact Chris Willis at cwillis4@esu.edu or 3459.
