Email from The Office of the Provost to all Faculty, Department Chairs, Deans and selected Administrators that includes the following items:
1. Timeline
2. Response Form.

Faculty chooses to opt-in or opt-out by returning the response form to OIEPA. Returned responses are processed and course evaluation packets are assembled for the quarter courses. If a response is not submitted, courses automatically default to their classroom method of delivery.

Course evaluation packets are distributed to academic departments. Representatives from each department sign for the information in OIEPA. Evaluations administered as per faculty discretion.

Completed course evaluation materials are to be placed in the Drop Boxes in Stroud Hall or Kemp Library.

Final collection of all course evaluation materials from drop boxes.

1. Course evaluation materials are assembled by OIEPA and transferred to the Computing Center for scoring of the quantitative results.
2. Compiled qualitative results for each faculty are ready to be retrieved, and signed for.
3. Computing Center completes processing. OIEPA hand delivers the quantitative results to the Colleges for distribution to the faculty.
