

Report on the FY 2021 Faculty Professional Development Council Annual Grant Program Awardees

The State System of Higher Education Faculty Professional Development Council (FPDC) was established by Board of Governors' Policy 1985-06-A, "to encourage continuous attention to the professional growth and development of System faculty as teaching scholars." The Council has addressed a wide range of faculty interests, needs, and talents, and provides professional development opportunities for faculty at all levels and in all disciplines and professional fields. The Annual Grant Program is intended to provide professional growth opportunities for individual faculty incorporated with the strategic priorities provided by the Board of Governors.

I. Proposals Submitted.

In April of 2021, the FPDC convened to review 102 proposals submitted from all 14 PASSHE institutions (Table 1).

Proposals were submitted to each of the Categories described in Table 2, below. The FPDC subcouncils evaluated proposals based on the following factors: (1) Project objectives and outcomes; (2) project significance and or contribution to the field; (3) Student outcomes; (4) Professional development; (5) Research & Assessment Methodology/Creative Process or Public service; and (6) Budget.

II. Proposals Awarded.

Approximately 44% of the proposals, were recommended for funding across 12 of the 14 PASSHE institutions (Table 3). Because one faculty member was granter a sabbatical during the funding period, Edinboro University did not accept that award. Therefore 43% of the proposals submitted were conferred FPDC awards in FY2021 from 11 of the 14 PASSHE institutions,

The research and creative awards, totaling \$300,000, will support a wide range of topics that reflect the depth of faculty expertise in the PASSHE system. Letters of Understanding were executed between PASSHE and the institutions of the Project Directors for each of the projects listed below.
