As part of the East Stroudsburg University community, we are familiar with academic schedules and deadlines and the need for a timely turnaround for printing and copy services. We are a non-profit printing operation. We evaluate and assess every project for the most economical and efficient method of production.

Office copiers and printers are convenient and an economical solution for small copy jobs. However, they can cost you money on larger jobs, when you factor in the cost of toner cartridges, labor and the cost per copy for maintenance. For projects with longer run lengths, we can save you time and money by combining several operations in one on our high-speed production equipment. In addition, you can extend the life of your office copier by using our equipment for these high-volume jobs.

Customer satisfaction is our number one priority. This is reflective in our prices, the quality of our work and in the value added services we offer our clients. Printing and Duplicating Services is a customer-oriented operation that aims for excellence in quality and service.

A customer service representative is available to assist with planning your projects, estimating your cost, and advising you of the best solution for your project. Consultation with you at the beginning planning stage enables us to provide you with maximum quality, the fastest turnaround time and the lowest cost.

Mailings are coordinated with the mailroom to ensure the fastest turnaround time, highest quality and most cost-effective product.
