

East Stroudsburg University
M.Ed. in Reading
Program Portfolio

As you engage in the M.Ed. in Reading program at East Stroudsburg University, you will want to document your growth, learning and understanding as you participate in classes and interact with other educators.

For each class, document your learning through narratives and support those with artifacts.

For some classes, there are required artifacts from our accreditation organization, CAEP. For other classes, choose one or more artifacts that demonstrate that you have broadened or extended your knowledge connected to the 6 Standards for Reading Professionals.

Required Artifacts:

REED 521 – **Student choice of artifacts**

REED 522 – Theoretical Models Analysis Paper

REED 523 – Tutoring Project

REED 524 – Final Clinic Portfolio

REED 526 – Professional Development Project

REED 528 – Content Area Resource Anthology (CARA)

REED 529 – Struggling Reader Project

REED 580 – Research Paper

Elective courses – **student choice of artifacts**

Here is a template to get you started. Feel free to design it in a way that best works for you, but make sure you are clearly documenting your learning in connection with the standards.
