Before an academic program/curriculum change is completed, a student's academic record will be evaluated. Entrance into certain majors may be subject to enrollment constraints and GPA requirements. Students changing from one major/minor/concentration to another may discover that some of their credits are not applicable to the new curriculum requested. It is suggested that students continue to work with the current and new departments on ways to maximize all coursework completed. Please also utilize your [degree audit](#) to keep track of your degree progress. All program changes should be requested prior to applying for graduation.

If you have any questions, please contact the [Registrar](#)
